Chief Kosman stated in 2011, the Village Board approved an Intergovernmental Agreement with the Village of Addison to provide police dispatch services for the Village of Bensenville through the Addison Consolidated Dispatch Center. Chief Kosman stated the Agreement requires that in order to add a new member, each existing member must formally adopt an amended Intergovernmental Agreement. Chief Kosman stated three new police agencies are in the process of joining the consolidated communications center at this time, the Du Page Forest Preserve Police, the Village of Wood Dale and the Village of Itasca. Chief Kosman stated the State of Illinois is encouraging dispatch consolidations, so there will likely be others joining ACDC in the future. Chief Kosman stated in order to make this process less cumbersome, the proposed Agreement also modifies the procedure for adding members to a unanimous vote of the Executive Committee composed of each member's Village/City Manager.

Chief Kosman stated the lease is for the installation of the antenna and auxiliary equipment that would be maintained in the vacant former US Cellular enclosure. While this agreement will not generate revenue for the Village, it will be of no cost to the Village and provide a great public safety benefit by improving the emergency radio signal in Bensenville. Chief Kosman stated Staff is working with Motorola to build an enclosure on site for Public Works chlorine treatment equipment that was planned for the US Cellular enclosure. Chief Kosman stated this item was already approved by the Committee in October, 2014, however since nearly seven months have passed in contract negotiations and new Trustees are now seated, Staff is bringing it back to the Public Safety Committee again for approval.

There were no questions from the Committee.
