PASSED AND APPROVED by the President and Board of Trustees of the Village of Bensenville this 22nd day, January 2019

We represent business owners on Center Street, Green Street or Addison Road south of the train tracks. We are all opposed to the proposed street and sidewalk construction beginning this Spring. We all believe that closing down the streets and putting in parallel parking will permanently hurt our businesses. One of the situations plaguing downtown Bensenville is the limited amount of parking. This proposal will make it worse. By putting in parallel parking, the number of street parking spaces will be reduced by as much as 67% plus it is much more difficult to park using parallel parking especially for senior citizens. The construction work which took place last year north of the railroad tracks and at the Village parking lot took an incredible amount of time. For many of us, even a short period of time when our entrance roads are closed or with limited access will severely hurt business income and may even force some of us to close. Finally, we are also troubled by the limited amount of information which has been provided to us by the Village regarding this project.

PETITION FOR PUBLIC PARKING

We, the undersigned, being local business owners and customers of Bensenville, do not want our Green Street and Center Street diagonal parking converted to parallel parking. The accompanying loss of spaces would be catastrophic to our retail businesses.
