Nancy Quinn  
Village Clerk

**PASSED AND APPROVED** by the President and Board of Trustees of the Village of Bensenville this 8th day, September 2020

Dimitre Matev  
401 S Miner St.  
Bensenville, IL 60106

EXPLANATION OF THE GRASS IN THE EMPTY LOT

401 S MINER ST.

What do I know about grass maintenance.

The grass was cut on April 22 by my son.

He flew to Bulgaria on 23 of April.

From that date to the date of the note...I guess is around July 1 ...they are 69 days.

In that period I cut the grass minimum 2 times , contractor did that one time.

If we divide them proportionally we have a period of 20 days during which the grass grows.

According to information from google....you showed me a picture of the place from google,

How fast does grass grow in a day?

The rate of **grass** growth depends on the type of **grass**, weather, amount of sun, water and other factors. Generally, **grass grows** at a rate of 2 to 6 inches a month.

Or... the possible height of the grass for the period of 20 days can be maximum 4 inches.

If we figure a period of 69 days ...we have to have 13.8 inches.

I remember an accusation years ago from the inspector whose office was in the fire department building. The accusation was ..that I was selling sandwiches on the lot.

Without evidence ...only a complaint from a neighbor. Revealed that there was no such thing

A few years ago the city used my lot to put pipes and equipment for some project .....

Without anyone notifying me. May I ask...is anyone punished for this offense?

For 20 years from year 2000 for which I own the lot, maintain it and pay my taxes properly.

Did I deserve this in perhaps the worst year since year 2000.

I have no notification of the tall grass, there was a note on the stick.

We go through Washinton St. 2 or 3 times per week in month june and july.

My wife and I have no seen the notice , we have not seen grass 20 inches high.

Best regards,  
Dimitre Matev

in the summer

in a week

for winter

in the fall

in the spring

In ideal conditions, most grass will grow within 10 days after sowing and will be fully established in 6-8 weeks (full coverage across the lawn - no patches). When it is fully established at the 6-8 week mark, you are free to walk, play and frolic on it as much as you see fit!
