Re: April 1, 2021 Freedom of Information Act Request

Dear Mr. De Michele:

This is in response to your April 1, 2021 Freedom of Information Act ("FOIA") request ("Request") for records pertaining to emails and resolutions within the Village of Bensenville itemized in "FOIA Request," attached hereto.

On April 8, 2021 the Village informed you that it was treating your FOIA request as voluminous and ask for you to narrow the request or grants the Village permission to proceed with the voluminous request.

On April 11, 2021 you informed thee Village to proceed with your voluminous request without narrowing.

On April 19, 2021 the Village extended its time for response by 10 business days.

Your FOIA is hereby granted in full.

The Village has identified 526 pages of documents responsive to your Request.

Under Section 6(b), 5 ILCS 140/6(b), the first fifty (50) pages of black and white documents responsive to a FOIA request are free, with the Village being authorized to charge for the number above that. The total number of pages responsive to your request above fifty (50) pages is 476, for which there is a charge of fifteen-cent (\$.15) per page, or \$71.40.

Accordingly, the total fees and charges due for the copies of the requested documents are seventy one dollars and forty cents (\$71.40). This amount must be paid in full *before* the copies of the documents will be provided. Please make your remittance payable to the "Village of Bensenville."

Please let me know if you have any questions.

Very truly yours,

Corey Williamsen  
Freedom of Information Officer  
Village of Bensenville

CORRY WILLIAMSEN  
DEPUTY CLERK

APRIL 10, 2021

PURSUANT TO THE FREEDOM OF INFORMATION  
ACT I REQUEST THE FOLLOWING:

Re: Freedom of Information Act Request –  
Village of Bensenville Received April 1,  
2021

Dear Mr. De Michele:

Thank you for writing to the Village of Bensenville (“Village”) with your request for information pursuant to the Freedom of Information Act (FOIA), 5 ILCS 140/1 *et seq.* You sent a April 1, 2021, FOIA request to the Village seeking copies of “1) Any and all correspondence between the Village of Bensenville or any employee and Kathleen Willis or her staff between Oct. 1, 2020 and April 1, 2021. 2) Any and all correspondence between the Village of Bensenville and any employee and Bensenville Fire District 2 (excluding ambulance calls) between Oct 1, 2020 and April 1, 2021. 3) A copy of the last executed agreement between the Village of Bensenville and Alfred Ronan for \$7500 per month.”

This correspondence shall serve to notify you that the Village is treating your FOIA request as a voluminous request under Section 3.6 of FOIA. 5 ILCS 140/3.6(a)(i). Section 2(h) of FOIA defines a voluminous request as “a request that: (i) includes more than 5 individual requests for more than 5 different categories of records or a combination of individual requests that total requests for more than 5 different categories of records in a period of 20 business days; or (ii) requires the compilation of more than 500 letter or legal-sized pages of public records unless a single requested record exceeds 500 pages. “Single requested record” may include, but is not limited to, one report, form, e-mail, letter, memorandum, book, map, microfilm, tape, or recording.” 5 ILCS 140/2(h). The Village is treating your FOIA request as a voluminous request because the Village’s response will require the compilation of more than 500 letter or legal-sized pages of public records. 5 ILCS 140/2(h); 5 ILCS 140/3.6(a)(ii).

You must respond to the Village within 10 business days after the date on which this correspondence was sent and specify whether you would like to amend your FOIA request in such a way that the Village will no longer treat your request as voluminous. 5 ILCS 140/3.6(a)(iii). If you do not respond within 10 business days, or if your FOIA request continues to be voluminous following your response to this correspondence, the Village will respond to your FOIA request and assess any fees charged pursuant to Section

6 of FOIA. 5 ILCS 140/3.6(a)(iv); 5 ILCS 140/6. The Village has five business days after receipt of your response to this correspondence or five business days from the last day for you to amend your FOIA request, whichever is sooner, to respond to your request. 5 ILCS 140/3.6(a)(v). The Village may request an additional 10 business days to comply with your FOIA request. 5 ILCS 140/3.6(a)(vi). If the Village provides responsive records to you and you fail to accept or collect the records, the Village will still charge you for its response pursuant to Section 6 of FOIA. 5 ILCS 140/3.6(a)(viii); 5 ILCS 140/6. Your failure to pay will be considered a debt due and owing to the Village and may be collected in accordance with applicable law. 5 ILCS 140/3.6(a)(viii).

You have the right to have the Village's determination that your FOIA request is voluminous reviewed by the Public Access Counselor (PAC) at the Office of the Illinois Attorney General. 5 ILCS 140/3.6(a)(vii).

You may file your Request for Review with the PAC by writing to:

Ms. Sarah Pratt  
Public Access Counselor  
Office of the Attorney General  
500 South 2nd Street  
Springfield, Illinois 62706  
Fax: 217-782-1396

Re: Freedom of Information Act Request – Village of Bensenville  
Received April 1, 2021

Dear Mr. De Michele:

Thank you for writing to the Village of Bensenville (“Village”) with your request for information pursuant to the Freedom of Information Act (FOIA), 5 ILCS 140/1 *et seq.* You sent a April 1, 2021, FOIA request to the Village seeking copies of “1) Any and all correspondence between the Village of Bensenville or any employee and Kathleen Willis or her staff between Oct. 1, 2020 and April 1, 2021. 2) Any and all correspondence between the Village of Bensenville and any employee and Bensenville Fire District 2 (excluding ambulance calls) between Oct 1, 2020 and April 1, 2021. 3) A copy of the last executed agreement between the Village of Bensenville and Alfred Ronan for \$7500 per month.”

On April 8, 2021 the Village of Bensenville notified you that we are treating your FOIA request as voluminous.

On April 10, 2021 the Village of Bensenville received your letter to proceed with the voluminous request and that all costs will be paid upon picking up the records.

Your FOIA request continues to be voluminous following your response to this correspondence, the Village will respond to your FOIA request and assess any fees charged pursuant to Section 6 of FOIA. 5 ILCS 140/3.6(a)(iv); 5 ILCS 140/6.

The Village is requesting an additional 10 business days to comply with your FOIA request. 5 ILCS 140/3.6(a)(vi). If the Village provides responsive records to you and you fail to accept or collect the records, the Village will still charge you for its response pursuant to Section 6 of FOIA. 5 ILCS 140/3.6(a)(viii); 5 ILCS 140/6. Your failure to pay will be considered a debt due and owing to the Village and may be collected in accordance with applicable law. 5 ILCS 140/3.6(a)(viii).

The Village will respond to your request on or before May 3, 2021.

Sincerely,

Corey Williamsen

Re: April 1, 2021 Freedom of Information Act Request

Dear Mr. De Michele:

This is in response to your April 1, 2021 Freedom of Information Act ("FOIA") request ("Request") for records pertaining to emails and resolutions within the Village of Bensenville itemized in "FOIA Request," attached hereto.

On April 8, 2021 the Village informed you that it was treating your FOIA request as voluminous and ask for you to narrow the request or grants the Village permission to proceed with the voluminous request.

On April 11, 2021 you informed thee Village to proceed with your voluminous request without narrowing.

On April 19, 2021 the Village extended its time for response by 10 business days.

The Village has now completed your request and it is ready for pick up upon payment.

The Village has identified 526 pages of documents responsive to your Request.

Under Section 6(b), 5 ILCS 140/6(b), the first fifty (50) pages of black and white documents responsive to a FOIA request are free, with the Village being authorized to charge for the number above that. The total number of pages responsive to your request above fifty (50) pages is 476, for which there is a charge of fifteen-cent (\$.15) per page, or \$71.40.

Accordingly, the total fees and charges due for the copies of the requested documents are seventy one dollars and forty cents (\$71.40). This amount must be paid in full *before* the copies of the documents will be provided. Please make your remittance payable to the "Village of Bensenville."

Please let me know if you have any questions.

Very truly yours,

Corey Williamsen  
Freedom of Information Officer  
Village of Bensenville

October 23, 2020

Honorable Frank DeSimone  
Village President  
Village of Bensenville  
12 S. Center St.  
Bensenville, IL 60106

Re: York Road Shared-use Path  
Irving Park Road to Thorndale Avenue  
Illinois Transportation Enhancement Program

Dear Village President DeSimone,

I was pleased to learn of the Village's application to the Illinois Transportation Enhancement Program for the construction of a shared-use path along York Road between Irving Park Road and Thorndale Avenue. I would like to take this opportunity to share my full support of the aforementioned project. The lack of a safe bicycle and pedestrian route along York Road limits active transportation opportunities to Bensenville residents and the future Elgin-O'Hare (I-390) interchange will pose issues to those seeking a pedestrian or bike route. It also creates difficulties for Bensenville residents trying to access the Salt Creek Trail.

The addition of this shared-use path will provide safer access to shopping and restaurants along Irving Park Road, Downtown Bensenville, the industrial area on York Road, the Salt Creek Trail, Bensenville Library, Park District facilities, the Bensenville Metra Station, and Pace Bus stops on York/Irving Park for residents in the region in addition to the health and pollution benefits that active transportation options provide. We look forward to a safe route around the future Irving Park interchange and O'Hare airport.

As the State Representative for the Village of Bensenville I strongly support the Village in its efforts to seek financial assistance for this extremely important project.

Yours truly,  
Sincerely,

A handwritten signature in black ink that reads "Kathleen Willis". The signature is written in a cursive style with a large initial 'K' and a long, sweeping underline.

Kathleen Willis  
State Representative  
77<sup>th</sup> District

Representative Willis,

HB 2461 contains the language that you carried for us previous regarding the land in Bensenville that is owned by the State and that Bensenville is looking to purchase in the future for economic development purposes. Senator Harmon's Office assures me that everything has been negotiated with the agencies and that we shouldn't see any hiccups this time around. We appreciate your support on this matter.

Please let us know if there is anything we can do for you,

eks

**Subject:** IDOL Inspections

Leadership Team et. al:

Village of Downers Grove, Lisle-Woodridge Fire, and Village of Naperville have all had Illinois Department of Labor show up unannounced to their facilities for OSHA-like inspections. The municipalities report that the inspections are incredibly detailed and time consuming. IDOL has claimed that they are "random" inspections that are "programmatic" in nature.

Let's make sure our facilities are safe and in a constant state of repair.

**From:** Alvaro Pena  
**Date:** 12/1/20 07:03 (GMT-06:00)  
**To:** Scott Walker  
**Subject:** Alarm Trouble Fines

Good morning Chief Walker,

Thank you for taking my call yesterday.

I totally agree with the enforcement of the ordinance. I also agree sending out a fire truck to repeatedly investigate a false alarm trouble is a total misuse of village resources.

However, like myself, most building owners are not aware of this ordinance or that it is being enforced.

As stated on the phone, the appropriate manner to handle this is to make the building owner aware of the ordinance after the first one or two alarm troubles in a given year.

Waiting for hundreds of dollars in fines to accumulate for the building owner to become aware of the ordinance is just not appropriate.

As you can see from my invoices attached, the first alarm trouble occurred on August 18, 2020. If I would have been aware of the fine situation I would have ample time to remedy the situation.

Instead, I received the first notice in the second week of November and paid the 1<sup>st</sup> invoice on Nov. 18 – Please see pdf attached.

I will be calling another alarm company to see if they can figure out what sends an “alarm trouble” signal to the alarm monitoring company. Quite weird that it only happens at night, for a short period of time and everything is totally functioning perfect the following day.

Please let me know how much in total I owe.

Thank you

Hi Scott,

Here is the copy of what we received. We really appreciate your intervention and thank you for understanding the delay in sending you the paperwork.

Sheila Reiter

**BENSENVILLE FIRE PROTECTION DISTRICT**  
Non-Emergency (630) 350-3441 | Fax (630) 350-3421

Property/Business Owner,

Since 2006, the Bensenville Fire Protection District has had an ordinance that addresses false fire alarms. The purpose of this ordinance is to encourage property owners to properly maintain their alarm systems and improve the reliability of the systems by reducing or eliminating false alarms. Nuisance false alarms create a burden on responding personnel and can potentially put them in an unnecessarily dangerous situation. For this reason, it is imperative that these important life safety systems are in a dependable state in order to protect the occupants and contents of your property.

Within this ordinance, the Bensenville Fire Protection District established a schedule of fines to be imposed when the number of false alarms exceed four within a twelve-month period. We are sending you this notice to inform you that your property has exceeded, or will soon exceed, this established number of false alarms and you will begin to receive fines if additional false alarms are received. You will find an invoice enclosed with this letter detailing the false alarms responded to at your property. If you have exceeded the established number of false alarms already, you will find a balance due on the enclosed invoice. Balances due will need to be paid in full within 30 days of the date on the invoice.

The Village of Bensenville, in partnership with the Bensenville Fire Protection District, endeavors to work with property owners and businesses to address their false fire alarm issues and get their fire alarm systems in proper working order. To speak to Bensenville's Fire Marshal, please contact Ron Herff at 630-594-1009.

If you have any questions concerning the dates of the false alarms, please direct those questions to the Bensenville Fire Protection District at the above listed non-emergency phone number.

**Please make all checks payable to "Village of Bensenville" and remit payment to:**

Date : 12-17-2020

To : Village of Bensenville

/Mr. Ron Herff

From : Management of 1006&1008 Argyle Park Apartments

Subject: Invoice for Alarm Call Occurance # 201720

While we sent you the full amount of the invoice \$450.00 and we appreciate your valuable service, we would like to address that *some* of the occurrences are not because of any malfunction of our fire protection system. The following reasons were repeatedly identified:

- 1 ) Malfunction of the provider system ; happened and was identified several times in December 2020.
- 2) The majority of the alarms are because a tenant is cooking and burned a "Tortilla!!"

---

We have an on-site maintenance man that you can call , his name is Arnold and his phone number is 630- 607-9869.

Thank you for your attention, your valuable service to keep our tenants safe.

Happy Holidays , may god Bless you and keep you safe.

**To:** Brian Dooley  
**Subject:** Re: CPR

Chief,

Sorry for the delay in responding, I was trying to figure out some things in regard to cost. To do CPR, AED and first aid the cost per head would be \$50, and that takes the class to a 6.5 hour class. I can only do 1 class a day of that. I would imagine the first aid training your officers receive in the academy is probably of a higher standard than what I teach, as it is geared more toward the general public, with a little extra for industrial/commercial setting. Let me know what you would like to do.

Thanks,

**Wade Fry**

Hi Wade,

Thanks for getting back to me. We do not need the CPR for BLS providers. Also we do not need Blood borne pathogens. We would be interested in first aid. What does that consist of and how much time does that add?

Thanks,

Brian

**Subject:** CPR

Good afternoon Chief,

My name is Wade Fry, and I and the CPR instructor for Bensenville Fire. I am writing you to finalize getting your officers through training. I am certified through an organization called Health and Safety Institute. This program is designed more for commercial and industrial workers, however I teach the same standards that the American Heart Association teaches. I'm not aware of any specific requirements for police officers, but if you are in need of CPR for BLS providers, I am unfortunately unable to teach that. However if that is not an issue for you, I just need to verify how many people I will be certifying so I can order supplies. Also, just to verify,

we are just doing CPR and AED, no first aid or blood borne pathogens? If this is all ok for you, just give me the number and I will order supplies and let you know when they are in to schedule the classes.

Thank you,

**ORDINANCE NUMBER 3-2021**

**AN ORDINANCE OF THE VILLAGE OF BENSENVILLE, DUPAGE AND COOK COUNTIES, ILLINOIS AUTHORIZING THE CONVEYANCE OF A VILLAGE OWNED PARCEL OF REAL PROPERTY TO THE BENSENVILLE FIRE PROTECTION DISTRICT NO. 2 AND APPROVING A PLAT OF SUBDIVISION**

---

**WHEREAS**, the Village of Bensenville, DuPage and Cook Counties, Illinois (the "*Village*") is a duly organized and existing municipal corporation created under the provisions of the laws of the State of Illinois and under the provisions of the Illinois Municipal Code, as from time to time supplemented and amended; and

**WHEREAS**, the Village owns property commonly known as 700 West Foster Avenue, Bensenville, Illinois and identified by permanent index number (PIN) 03-11-400-016 (the "*Property*"), which is improved with a fire station and a building that contains Well #7; and

**WHEREAS**, Well #7 is an integral part of the Village's water supply system and is required for the continued operation of the Village's public utility; and

**WHEREAS**, on January 1, 2007, the Village and the Bensenville Fire Protection District No. 2 (the "*District*") entered into an Intergovernmental Agreement by and between the Village of Bensenville and Bensenville Fire Protection District No. 2 (the "*Intergovernmental Agreement*"), which contemplates and governs the transfer of firefighting functions, property, and equipment from the Village to the District; and

**WHEREAS**, pursuant to the Intergovernmental Agreement, the Village agreed to convey the portion of the Property upon which the fire station is located to the District in its "as is" condition; and

**WHEREAS**, the real property to be conveyed to the District consists of a 26,961 square

foot parcel of land depicted as Lot 1 on the Final Plat of Subdivision of Schoppe's Station Subdivision, a copy of which is attached hereto and made a part hereof as Exhibit A (the "*Fire Station Property*"); and

**WHEREAS**, the Intergovernmental Agreement provides that if necessary, the Property will be subdivided; and

**WHEREAS**, the President and Board of Trustees of the Village of Bensenville (the "*Corporate Authorities*") have determined that it is necessary and in the best interest of the health, safety and welfare of the residents of the Village to subdivide the Property into two lots with such necessary easements therein provided so that the Village may retain ownership of Well #7 for its continued operation, maintenance, repair, and replacement and convey the Fire Station Property to the District as contemplated by the Intergovernmental Agreement.

**NOW, THEREFORE, BE IT ORDAINED** by the President and Board of Trustees of the Village of Bensenville, DuPage and Cook Counties, Illinois, as follows:

**Section 1.** The above recitals and legislative findings are found to be true and correct and are hereby incorporated herein and made a part hereof, as if fully set forth in their entirety.

**Section 2.** The Corporate Authorities find and determine that it is necessary and desirable to provide for the purpose set forth herein and that the adoption of this Ordinance is in the best interest of the health, safety, and welfare of the residents of the Village.

**Section 3.** Pursuant to the findings set forth herein, the Corporate Authorities hereby accept and approve the Final Plat of Subdivision of Schoppe's Station Subdivision, a copy of which is attached hereto and made a part hereof as Exhibit A (the "*Plat of Subdivision*"), and the Village President, Village Clerk and Village Treasurer are hereby authorized to execute and deliver

the Plat of Subdivision.

**Section 4.** The officials, officers, employees, and attorneys of the Village are hereby authorized to take any actions as are necessary to carry out the intent and purpose of this Ordinance and such further actions or revisions to the Plat of Subdivision to ensure the subdivision of the Property is duly recorded and effectuated.

**Section 5.** The conveyance of the Fire Station Property to the District is hereby approved, and the officials, officers, employees, and attorneys of the Village are hereby authorized to take such further actions and incur such cost as are necessary to complete the conveyance of the Fire Station Property to the District.

**Section 6.** The Village Clerk is hereby directed to file a copy of this Ordinance and the Plat of Subdivision in the Office of the Recorder of Deeds of DuPage County, Illinois.

**Section 7.** If any section, paragraph, clause, or provision of this Ordinance shall be held invalid, the invalidity thereof shall not affect any other provision of this Ordinance.

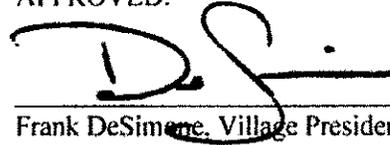

**Section 8.** All ordinances, resolutions, motions, or orders in conflict with this Ordinance are hereby repealed to the extent of such conflict.

**Section 9.** That this Ordinance shall be in full force and effect from and after its passage, approval and publication in the manner provided by law.

*(Intentionally Left Blank)*

**PASSED AND APPROVED** by the President and Board of Trustees of the Village of Bensenville, DuPage and Cook Counties, Illinois, this 9th day of February 2021, pursuant to a roll call vote, as follows:

**Attachments:** DCHD-Police-Fire Vaccination Spreadsheet.xlsx

Chief Schulze and Chief Walker,

While I know that both your departments have had the opportunity to be vaccinated, I wanted to make you aware of a second opportunity. The DuPage Mayors and Managers have had the Health Department agree to start direct vaccinations of sworn police and fire individuals. If you have sworn staff that did not get vaccinated in the first wave but have since decided they want to be vaccinated, please fill out the attached form and return to me no later than Wednesday Feb 10. I will return to completed form once complete. If you have zero individuals left who want the vaccine, please let me know that as well.

**Subject:** RESPONSE REQUESTED - SWORN PERSONNEL VACCINATION OPPORTUNITY

DMMC managers:

The Managers Committee Working Group (Dave Fieldman, Carie Anne Ergo, Kathleen Gargano, Jeff O'Dell, and Al Stonitsch) working with the DCHD has arranged for the health department to vaccinate sworn municipal fire and police personnel beginning on February 15. Depending on the number needing vaccination, this may take place over several weeks.

We ask that you fill out the attached spreadsheet with the names, emails, and cell phone numbers of those sworn personnel awaiting vaccination in your police and fire departments. Please return your completed form no later than 10 a.m. on February 11.

The spreadsheet will be randomized before sending to the health department. The health department will then reach out each week to those scheduled to receive the vaccine.

Thank you in advance.

Suzette

**Subject:** Tomorrow's Vaccine Event

For those that participated in the Feb 27 vaccine event:

As you know, we will be administering the second dose of the vaccine to our seniors tomorrow March 6 at Fenton High School. The event will be very similar to the previous one. Please arrive by 8am for a team meeting. We will begin vaccinating people at 9am and expect to conclude around 5pm. The second dose event are usually much smoother; there is less paperwork to collect, people are familiar with the process, and nerves are generally much more relaxed.

If you have any questions, please don't hesitate to ask.

Thank you for your participation in this important effort,

eks

**Subject:** Re: MSM Vaccine event 3-21-21 & 100 Bensenville people. To keep you in loop

All,

We want to sincerely thank Dr. Barai, MSM Executive Board President Patel, and the greater MSM community for their offer of hospitality to host their facility to the residents of Bensenville to receive their second shot from the February 27 event. We have, however, opted to host a separate event for those Bensenville residents at Village Hall on Monday March 22nd and IDPH has agreed to this date.

By way of this email Bensenville Police, Fire/Paramedic, and Emergency Management are aware of MSM's 2nd shot event on March 21 between 9:30-11am. Bensenville emergency services have noted this event and will be able to respond to any emergency should they present themselves.

In closing, I believe the Village of Bensenville and MSM have opened doors among our constituents as a result of our mutual vaccine push; I want to acknowledge our partners at IDPH for connecting us. In no way do I want those doors to close. Once we get beyond this vaccine rollout, I am confident that the Village of Bensenville and MSM will build upon this partnership for continued mutual success.

Respectfully,

Evan K. Summers  
Village Manager

**Subject:** MSM Vaccine event 3-21-21 & 100 Bensenville people. To keep you in loop

Hello,

I understand that Bensenville wants to do a separate 2nd shot vaccination event for approx 100 people, who had received their 1st shot at MSM on night of Feb 27.

During my conversation with the Town Manager Evan Summers yesterday, on behalf of MSM, I extended a courtesy offer to host them at MSM on March 21 from 9.30-11 am for the 2nd shots.

Our Temple is in Bensenville and we want to help fellow citizens and the town in whatever way we can.

They will decide what is best for them.

Thank You

**Subject:** 2021 Construction Season

Good morning all,

The purpose of this email is to notify you of the upcoming project in the 2021 construction season which may or may not have impacts on your operations. Hopefully this update can help you plan accordingly.

2021 MFT Street Improvements Program: The 2021 MFT Street Improvements Project will include Red Oak St and Crest Ave between York Rd and their respective eastern limits. It will also include Rose St/Marion St/Park St from Jefferson St to its respective southern limits. The project also includes Park St between Jefferson St and Pine Ave as well. The project mainly consists of full depth (6-inch) resurfacing of all the roadways except for Park St between Jefferson St and Pine Ave, which will receive 2-inch resurface. The streets will also receive spot curb and gutter repairs, spot sidewalk repairs, some driveway aprons anticipated to be impacted by the construction, minor storm sewer repairs, parkway restoration and other miscellaneous items as necessary. There will be driveway access issues throughout the project and as such the residents will be notified to utilize street parking overnight. At this time, the tentative start date for the project is set for April 5, 2021 or sooner, weather permitting. The substantial project completion is June 30, 2021, barring any major delays. The substantial completion marks completion of all major work items excluding landscaping. The final completion is September 24, 2021. The project is designed to be constructed under road closures. Please note, there will be some temporary delays during construction hours due to various contractor activities. Local access to residents and deliveries will be maintained to the best of our abilities. Our contractors are always reminded to keep access open for emergencies.

2021 Residential Streetlight Program: This project will be located in Brentwood Subdivision bounded by York Rd-Grand Ave-Dennis Dr-Addison Creek. This project includes installation of one hundred and twenty five (125) decorative LED street lights within the project limits along with associated conduits, wiring, controllers, landscape restorations, etc. The project construction is underway. The substantial completion date for this project is July 16, 2021, pending weather. The substantial completion is achieved when all contract items except for the landscape restoration is complete. The landscape restoration will likely occur in September 2021. This project will not have much impact on the motoring traffic as the project is designed to keep access open at all times. You may notice some hindrances from time to time due to contractor equipment on site.

White Pines Watermain Rehabilitation: This project will replace approximately 15,000 lineal feet of watermain throughout the subdivision along with associated water apparatuses such as 226 water services, valves, valve vaults, b-boxes, etc. The project will also include the following major items anticipated to be disturbed during the construction: roadway patching, driveway aprons, storm sewers, sanitary service adjustments, landscaping, etc. This project was initiated in fall of 2020 and the contractor has resumed work this spring. The substantial completion date for the project is October 29, 2021. The substantial completion is achieved when all contract items except for landscape restoration are completed. The final completion including landscape restoration will be May 20, 2022. This project is designed to have temporary and permanent road closures including detours, especially along the Frontage Rd and Forestview Dr. Please note, there will be some temporary delays during construction hours due to various contractor activities. Local access to residents and deliveries will be maintained to the best of our abilities. Our contractors are always reminded to keep access open for emergencies.

Church Rd Shared Use Path – This path extends along west side of Church Rd between Grove Ave and Irving park Rd. The Metra railroad forces will out this spring/summer to install a pedestrian crossing gate over the path. I expect the railroad will be out onsite for about 3-4 weeks once they mobilize the site. The tentative start date is to be determined.

York Rd (LS-10) and Thomas-Foster (LS-15) lift station Rehabilitation – The Village owns and maintains sanitary sewer lift stations at the intersection of York Rd and Roosevelt Rd (on the east side of York Rd just north of Roosevelt Rd) and at the northwest corner of intersection of Foster Ave and Thomas Dr. Both of these lift stations are scheduled for mechanical and electrical upgrades along with some piping in and out of the lift station. This project will be advertised for bids shortly. I anticipate the construction will begin late May 2021 and will be substantially completed by Nov 2021. The final completion date is December 2021. I don't anticipate daily activities on this project will hinder the traffic but there will be occasion delays.

In addition to the above, the Village will also be undertaking routine maintenance projects such as Village wide pavement patching, sidewalk removal and replacement, pavement markings and sidewalk cutting this spring/summer. These projects are short in duration and generally completed under daily lane closures with minimal traffic disruptions.

Additionally, DuPage County Department of Transportation will be resurfacing Grand Ave from Lake St to County Line Rd this summer. This project also includes major intersection improvements at York Rd/Grand Ave including new traffic signals, island removals, etc. The schedule updates are not yet available for this project; however, it is anticipated the project will ongoing majority of the 2021.

The Illinois Tollway will also be busy most of 2021 and beyond at the York Rd/Thorndale Ave corridor with major overpass projects.

Please contact me with any questions and/or concerns. Thanks.

**Subject:** Invoice

Scott,

This was an on duty police officer who stopped by the firehouse to have a paramedic look at a laceration he received on his hand while on a call. The paramedic thought it needed stitches (which it did) and bandaged it. He transported himself for treatment. Is this something that can be waived?

Thanks

Dan

**Subject:** 971 Supreme Fire Pump

**Importance:** High

Chief, I was just advised that the underground loop that feeds the risers from the fire pump is leaking water underground.

They will be abandoning the undergrounding piping and install new overhead pipes

Until this is complete the Fire Pump will be OUT OF SERVICE.

The sprinkler system and fire Alarm are up and running.

The building is only occupied by one or two people with little to no stock.

Please let the guys know.

I'll let you know when it is back in service.

**NOTE:**

They are having a similar issue at 1010 Foster, with the underground riser pipes leaking water.

They will not start that work at 1010 Foster until 971 Supreme is complete.

All systems are operational at 1010 Foster.

Thanks, Don. I'll get working on these. We'll be installing Knox boxes at 840-892 Eagle next week.

Also, BFC company at 844 Eagle sent me his inspection report. Is there a certain specification on the exhaust?

Best,

# FEMA ADVISORY – OCT. 5, 2020

## Coronavirus Pandemic:

### Additional \$31 million available to Firefighters

Fire service organizations nationwide with membership on the front lines in the fight against the coronavirus (COVID-19) public health emergency will soon be able to apply for a share of \$31 million to purchase personal protective equipment and supplies. The funding is part of the Coronavirus Aid Relief and Economic Security (CARES) Act through FEMA's Assistance to Firefighters Grant Program (AFGP).

FEMA will begin accepting application for the second round of the **Fiscal Year 2020 Assistance to Firefighters Grant – COVID-19 Supplemental Program (AFG-S)** on Tuesday, Oct. 6. The deadline for receipt of AFG-S applications is Friday Nov. 13, 2020, by 5 p.m. ET. The second round of the FY20 AFG-S grant is strictly limited to only fire departments classified as volunteer or combination organizations. Those who would like to start planning their application before the application period opens can access the Notice of Funding Opportunity (NOFO) and technical assistance tools on the [FEMA Website](#). The AFG-S application is available through the [FEMA Grants Outcomes \(FEMA GO\) application portal](#).

## Contact Us

If you have any questions about the AFG-S grant or the AFG Program, you can contact the AFG Program Help Desk. The AFG Program Help Desk is available from 8 a.m. to 4:30 p.m. ET, Monday – Friday.

1. AFG Program Help Desk at (866) 274-0960 or at [firegrants@fema.dhs.gov](mailto:firegrants@fema.dhs.gov)

If you have any questions regarding this FEMA advisory, please contact FEMA Office of External Affairs, Congressional and Intergovernmental Affairs Division:

Intergovernmental Affairs at (202) 646-3444 or at [FEMA-IGA@fema.dhs.gov](mailto:FEMA-IGA@fema.dhs.gov)

Not sure if you receive these but it appears there is some drama with your customer, BFPD #1. There is a follow up email I'll send you.

**From:** My White Pines  
**Sent:** Tuesday, October 13, 2020 12:06 PM  
**Subject:** News You Can Use!

Dear Neighbors,

We have been informed that there will be a joint meeting tomorrow, Wednesday the 14<sup>th</sup>, between Addison Township and Bensenville Fire Protection District #1. This open meeting will be held at 6:30 pm at 401 N. Addison Road, Addison, IL 60101. Please enter at Door 8.

As you already know, we have been investigating Bensenville Fire Protection District #1 (BFPD#1) for over a year now in regards to the poor management of this governmental entity. Through Freedom of Information Requests (FOIAs) we have found that this paper fire district is nothing more than a nice little extra income for its board members and Mr. Paul DeMichele who is a self-described "consultant" for the district. BFPD#1's bookkeeping and recordkeeping is atrocious. This district has no fire equipment, no firemen, no firehouses, no office and no emergency phone number. They do not respond to fires yet one of its board members charges the district for travel expenses regularly. They previously actually bought themselves badges even though they themselves are not firemen in any sense of the word. BFPD#1 pays an attorney representing them thousands upon thousands of dollars to do the work that they are actually getting paid to do.

We, the White Pines Community Alliance, have requested many documents from BFPD#1 that we are legally allowed to ask for through FOIAs. The district has stonewalled us time after time on these requests and we have had to resort to requesting that the Illinois Attorney General's PAC officer step in to help us get the requested documents. They claim on their website that their finances are audited yearly but we have found that they actually have not been audited in many, many years. It is Bensenville Fire Protection District #2 (BFPD#2) that actually services our area yet Bensenville Fire Protection District #1 is who actually gets our property tax money. BFPD#1 simply collects our taxes, skims some off the top to compensate its board members and "consultants" and then pays a few dollars to BFPD#2 to do the actual work. For the record, we did also FOIA the finances of BFPD#2 and received a very quick, complete and organized set of documents directly from the district itself. It doesn't appear that they had to pay an attorney thousands of dollars to do their own work as BFPD#1 does.

The Addison Township Board attempted to get a handle on this rogue fire district over a year ago but was also stonewalled by the members and it's "consultant" Paul DeMichele. At the last BFPD#1's public meeting Addison Township Supervisor Dennis Reboletti made it very clear that Addison Township would no longer stand for the stonewalling and demanded that BFPD#1's board meet with the Addison Township Board. This

has resulted in tomorrow's meeting. If truly care how your taxes are being spent please attend this meeting and voice your opinion.

On to other business; as is clearly visible the new water mains project has begun. It appears that the new mains will be located on the existing fire hydrant side of the street and this is the side that the street will be cut on. Please note that according to DuPage County Codes the county's right-of-way extends 33 feet from the centerline of the roadway in residential areas. While it looks like the water main project contractor is taking every precaution to avoid disturbing landscaping in front of houses they can use the entire right-of-way if warranted. If you have any sensitive or fragile decorations within the right-of-way it would be advisable to move them before the construction begins in front of your house.

It is clear that many people have been without a job during this pandemic as many businesses have closed their doors either temporarily or permanently. There is one entity that must be kept open and that is our local county government. As such, DuPage County is continually looking for people to fill positions in all kinds of fields. These open positions are regularly posted on their website at the following link:

<https://www.dupageco.org/jobs/>. Check it out and find your dream job today.

Lastly, we would like to congratulate one our longtime residents Mr. Rich Zappen. Rich is an avid marathoner and would have completed his 100<sup>th</sup> official marathon if the Chicago Marathon had not been cancelled. It had been reported by abc7 news that Rich was still going to run the marathon by himself and with a few family and friends spread out on the course to cheer him on. We not going to lie, we're a little envious that Rich at 64 years old is making the rest of us look like couch potatoes. You go Rich!!

Stay safe.

The meeting last night was totally uneventful and in fact was very favorable for BFPD #2 because I had the opportunity to meet many residents of District 1 who took the time after the meeting to thank District #2 for our service and to also highlight some calls where we made a difference in their lives over the years.

**Sent:** Thursday, October 15, 2020 10:53 AM  
**Subject:** Busy, Busy, Busy!

Dear Neighbors,

Boy, yesterday was a busy one for White Pines. So much going on in our little Burg.

**Emergency Call:**

For all those asking about the massive emergency response yesterday in our community you will be pleased to know that all is well. At around 10:45 last night an emergency call came out that there was a small explosion and fire behind a house located just a few doors down from the corner of Red Oak and Pine Grove. At least four Fire Departments and multiple police departments responded with dozens of trucks and vehicles converging on our subdivision. As it turns out, we have been informed that a propane gas tank in a shed exploded and caused the shed, fence and some trees to catch on fire. The fire was quickly extinguished and the fire department checked for any additional gas leaks. We would like to thank all those first responders that came rushing in to make sure our community was safe.

**Addison Township / Bensenville Fire Protection District #1 meeting:**

The White Pines Community Alliance did send representatives to this meeting last night in which Dennis Reboletti, the Addison Township Supervisor, gave an extraordinarily generous proposal to the Bensenville Fire Protection District #1 (BFPD#1) board. Mr. Reboletti told BFPD#1's board that the Township will provide them with an office, bookkeeping services, document retention, FOIA responses, auditing, State required financial disclosure statements, a page on their website, a dedicated phone number and a true physical address ALL FOR FREE! The Township will do this with an intragovernmental agreement in writing. Now for BFPD#1 to refuse this offer would be ludicrous and only prove our contention that certain members of their

board and it's paid "consultant" wants to keep a grip on the finances of this paper fire district for their own personal benefit. Paul DeMichele made a public comment at this week's DuPage County Board meeting in which he stated that we, the **White Pines Community Alliance**, had an agenda to increase the cost of fire protection. After last nites Addison meeting, in which he attended, we would like to ask Mr. DeMichele how exactly all these free services offered by Addison Township will increase fire protection costs. If anything, an intragovernmental agreement with Addison Township will substantially reduce fire protection costs by eliminating certain fees from BFPD#1's books like high attorney fees, internet website costs and a certain "consultant's" monthly fee. We emphatically applaud Addison Township Supervisor, Dennis Reboletti, for taking the steps necessary to assure that our tax dollars are spent wisely.

As BFPD#1 has about a month to contemplate Addison Township's offer they have reported that their next public meeting will be held Nov 16<sup>th</sup> and the White Pines Community Alliance have been asked to be there to offer what we would like to see happen within and with this district. We will without hesitation of course be there and anticipate a lively discussion on the topic of BFPD#1 accepting Addison's offer. We would also like to thank BFPD#2's new Fire Chief, Scott Walker, for attending this meeting as we are sure any decision BFPD#1 makes will affect his fire companies.

**Water Main locations:**

In a previous email we stated that it appears that the new mains will be located on the old fire hydrant side of our streets. While for the most part this is true, after a conversation with Bensenville's Director of Public Works, Joe Caracci, it appears that there will be some deviation from this. We have been told that on our North/South streets the new mains will be placed on the West side on the street except of course those on Route 83, but on the East/West streets the mains could be on either side such as on Forest View in which the new lines will be installed on the North side of the street. In any case it is advisable to make sure you remove any decorations or objects within the previously stated right-of-way of 33 feet from the roadway center line.

**Our Community's Marathon Celebrity:**

Rich Zappen, after 100 marathons isn't sitting back in his easy chair. Rich has informed us that he intends to run the New York marathon virtually next Saturday in our subdivision! 101 and counting!! The New York Virtual Marathon is 26.2 miles so we will see Rich many times as he traverses our tiny subdivision. He intends to get an early start so please give Rich encouragement and a big applause as he runs by. Maybe we'll see our other Marathoner, Tammy Gentile, out there trying to outpace Rich??

Please stay safe.

BIG Administrators,

The Village is currently soliciting proposals for a COVID-19 Outreach Coordinator (Latino) funded through a CARES Act allocation from the County. The goal would be to help make a meaningful intervention on COVID-19 within our Latino/Hispanic community. Please share with any person/organization you or your staff may feel qualified.

Proposal due November 5.

Request for Proposals (RFP): COVID-19 Outreach Coordinator: Intervention in Latino Communities...

## COVID-19 Outreach Coordinator: Intervention in Latino Communities

**Request for Proposals (RFP):  
COVID-19 Outreach Coordinator: Intervention in Latino Communities**

**Proposal Due Date:** Thursday, November 5, 2020 (4:00pm)

**Submit Proposals To:** Evan K. Summers, Village Manager, Village of Bensenville

**Email:** [manager@bensenville.il.us](mailto:manager@bensenville.il.us)

[Full Proposal Specifications and Scope of Services Available in Related Documents Section Below](#)

### **Project Description**

In an effort to impose a quick intervention against the spread of COVID-19, the Village of Bensenville is soliciting proposal to contract with an outside person or agency to serve as an outreach coordinator whose primary focus will be to work directly with the Bensenville, IL Latino community to educate them about the risks of COVID-19 as well as provide strategies and supplies that are proven to reduce community spread.

### **Background and Community Needs**

The Village of Bensenville disproportionately has one of the highest rates of COVID-19 positive cases compared to other municipalities in DuPage County. Data collected by the DuPage County Health Department has found that Hispanics or Latinos are 3.8 times more likely to be diagnosed with COVID-19 than non-Hispanic or Latino residents. Correspondingly, Bensenville has one of the largest Latino/Hispanic populations in DuPage County, comprising 49.7% of the Village's overall population.

In order to protect residents by reducing the spread of COVID-19, the Village is soliciting proposals from qualified entities to serve as an Outreach Coordinator for COVID-19 Intervention in Bensenville's Latino Community.

### **RFP Timeline**

October 21, 2020: Request for Proposals Released

November 5, 2020: Proposals Due at 4:00 PM

November 5-12, 2020: Proposals Review, Preliminary Candidate Selection

November 12, 2020: Applicants Notified

Chief,

We've discussed briefly a long time ago but I wanted to give you an update on the Bensenville Tax Consortium. As I mentioned previously, we weren't too happy with our primary attorney Hinshaw. Recently the consortium dropped them as our primary and has moved our secondary, Klein Thorpe and Jenkins, to the primary spot. In doing so, we are going to re-open our IGA to make some edits. Now would be a seamless time for the Fire District to join us. With your addition, all Bensenville taxing bodies would be represented.

Let me know,

eks

Mallory,

Thanks for the email. A few things:

1. I'll recommend that we take your advice and intervene on the four PTAB cases your reviewed.
2. Shortly, I'll circulate a new resolution for all members to adopt recognizing KTJ as the consortium's attorney of record.
3. Attached is the Word.doc for the consortium's IGA. In addition to adding KTJ to Section 2, we should revisit section 4 and adjust the proportionate percentages. Any other changes needed?
  1. I'm also going to approach the Fire District and see if they would have interest in joining our merry band of interveners.
4. As for billing, and to minimize KTJ's administrative hours, the Village will continue to pay all KTJ bills and then invoice the other members for their proportionate share.

That should cover it for now. Other members, please weigh in on #1 and give (or don't give) Mallory authorization to proceed.

Respectfully,

eks

**Subject:** Bensenville Consortium PTAB recommendations

All:

First, I want to thank you all for choosing KTJ as your property tax counsel. Second, per Evan's email on Friday informing me of the Consortium's decision to retain KTJ as its property tax counsel, I have reviewed the PTAB notices that he forwarded me and enclosed are our intervention recommendations.

How I usually approach PTAB interventions is that I have a threshold for intervention (which allows us to, at minimum, be part of any settlement conversation and participate in any hearing) and then once I receive a copy of the evidence the appellant filed, I evaluate whether or not it is beneficial for the Consortium to obtain an appraisal, comparable sales, or just adopt the evidence of the other parties/Board of Review. If there is any cost associated with this analysis, I get approval from the Consortium. Essentially, I would not retain an appraiser without approval from the Consortium. If there is a different way you would like to proceed, please let me know.

In addition to your approval to intervene in the specific PTAB appeals attached, I will need updated resolutions adopted by each taxing body, stating that Klein, Thorpe & Jenkins, Ltd. is now that authorized representative. For your convenience, I have attached a copy of the old resolution, which can be updated by replacing Hinshaw with Klein, Thorpe & Jenkins, Ltd. in Paragraph #2. You also will likely want to update your IGA to reflect the new law firm, but for intervening in PTABs, I just need the new resolutions.

I also need to know how you want the billing set up and split – do you want each property to have its own matter number or do you want them all together under one bill as long as all members of the Consortium are impacted? Do you all want to receive bills with your approved split, or do you want to continue billing the Village, who then handles the pro rata split?

If you need me to prepare a word version of the new resolution, please let me know. Also, if there are any other directives related to this relationship and how information is communicated, please let me know.

1. I'll recommend that we take your advice and intervene on the four PTAB cases your reviewed.
2. Shortly, I'll circulate a new resolution for all members to adopt recognizing KTJ as the consortium's attorney of record.
3. Attached is the Word.doc for the consortium's IGA. In addition to adding KTJ to Section 2, we should revisit section 4 and adjust the proportionate percentages. Any other changes needed?
  1. I'm also going to approach the Fire District and see if they would have interest in joining our merry band of interveners.
4. As for billing, and to minimize KTJ's administrative hours, the Village will continue to pay all KTJ bills and then invoice the other members for their proportionate share.

That should cover it for now. Other members, please weigh in on #1 and give (or don't give) Mallory authorization to proceed.

Respectfully,

eks

**Cc:** Jada Franklin <jfranklin@KTJLAW.com>

**Subject:** Bensenville Consortium PTAB recommendations

All:

First, I want to thank you all for choosing KTJ as your property tax counsel. Second, per Evan's email on Friday informing me of the Consortium's decision to retain KTJ as its property tax counsel, I have reviewed the PTAB notices that he forwarded me and enclosed are our intervention recommendations.

How I usually approach PTAB interventions is that I have a threshold for intervention (which allows us to, at minimum, be part of any settlement conversation and participate in any hearing) and then once I receive a copy of the evidence the appellant filed, I evaluate whether or not it is beneficial for the Consortium to obtain an appraisal, comparable sales, or just adopt the evidence of the other parties/Board of Review. If there is any cost associated with this analysis, I get approval from the Consortium. Essentially, I would not retain an appraiser without approval from the Consortium. If there is a different way you would like to proceed, please let me know.

In addition to your approval to intervene in the specific PTAB appeals attached, I will need updated resolutions adopted by each taxing body, stating that Klein, Thorpe & Jenkins, Ltd. is now that authorized representative. For your convenience, I have attached a copy of the old resolution, which can be updated by replacing Hinshaw with Klein, Thorpe & Jenkins, Ltd. in Paragraph #2. You also will likely want to update your IGA to reflect the new law firm, but for intervening in PTABs, I just need the new resolutions.

I also need to know how you want the billing set up and split – do you want each property to have its own matter number or do you want them all together under one bill as long as all members of the Consortium are impacted? Do you all want to receive bills with your approved split, or do you want to continue billing the Village, who then handles the pro rata split?

If you need me to prepare a word version of the new resolution, please let me know. Also, if there are any other directives related to this relationship and how information is communicated, please let me know.

**Subject:** Re: Bensenville Consortium PTAB recommendations

Evan,

What is the process with this? In Addison, every taxing body sends the appeals to a specific attorney as we get them. Are we doing the same in Bensenville? And if so, where are we sending them?

Thanks,  
Scott

**Subject:** FW: Bensenville Consortium PTAB recommendations

Chief,

We've discussed briefly a long time ago but I wanted to give you an update on the Bensenville Tax Consortium. As I mentioned previously, we weren't too happy with our primary attorney Hinshaw. Recently the consortium dropped them as our primary and has moved our secondary, Klein Thorpe and Jenkins, to the primary spot. In doing so, we are going to re-open our IGA to make some edits. Now would be a seamless time for the Fire District to join us. With your addition, all Bensenville taxing bodies would be represented.

Let me know,

eks

**Subject:** Fw: OSFM Facility 2000328 - RE: LUST Fund & Tank Leak

Evan,

I recently got an email from Gabriel Environmental Services regarding the cleanup of the site of old underground tanks at the fire station on York Road. They said that they also sent you the same email. I reached out to the State Fire Marshal and asked them to do some digging. It appears one of the incidents remains open with the IEPA and the responsibility of this site falls on the Village because they were the owners of the tanks at the time of the leaks. Not sure if you have any clue about this because like me, you weren't around when all this went down. The email chain below will hopefully shed some light on this matter.

Thanks,  
Scott

**Subject:** OSFM Facility 2000328 - RE: LUST Fund & Tank Leak

Scott,

You are probably correct in that the environmental company who contacted you have been searching through the IEPA's records for outstanding (open) LUST incidents and making cold calls to the owners or operators of the site to see if they can drum up business. I searched our records and found your site. Our facility ID number for this address is 2000328. I have reviewed our facility file and this is what I found:

There were two incidents reported for this facility: 1999-2754 and 2010-0251.

IEMA #1999-2754 – this incident was reported on 12/14/99 by the Village of Bensenville, (Thomas Moore) for tanks 1 and 2, an 800 gallon Gasoline and an 800 gallon Diesel fuel tank, both of which were removed on 12/14/99. An Eligibility and Deductible application was received by our office on 2/22/01. A letter of eligibility was issued to the Village of Bensenville on 3/19/01 and the Village received a \$10,000 deductible for this incident. This incident was closed out by the IEPA and the Village received an NFR (No Further Remediation) letter on 4/27/10 and it was recorded on 5/27/10. So this incident is a closed issue.

IEMA #2010-0251 – this incident was reported on 3/18/10 by True North Consultants for a release (spills & overfills) for tanks 3 and 4, a 600 gallon Gasoline and a 600 gallon Diesel fuel tank. An Eligibility and Deductible application was received by our office on 4/30/10. A letter of eligibility was issued to the Village of Bensenville on 6/02/10 and they received a \$10,000 deductible for this incident. This incident has not been closed out by the IEPA. According to the IEPA's website, the Project Manager in charge of this case is Carol Hawbaker. I don't know if Carol is still with the IEPA or not. They've had many project managers

retire in the last few years. This may be what that environmental consultant found on the IEPA's website and contacted you.

Scott, in neither case does the \$5,000 deductible apply to these releases. Unfortunately, if the person who contacted you had done many of these applications, they would be aware that these incidents have received eligibility and a \$5,000 deductible doesn't apply. Even if they were to ask the fire department to submit their own separate Eligibility application for this open incident, it too would only receive a \$10,000 deductible. A \$5,000 deductible only applies to releases reported to the State on or after 6/8/10. Releases reported prior to that date will receive a deductible of either \$10,000, \$15,000, \$50,000 or \$100,000 depending on the date the tanks were installed vs. when they were registered. This was the case for both of the incidents for this facility. Before you proceed to make plans with the environmental company who contacted you, I think it would be in the Village's best interest to contact the IEPA since they were the owner of these tanks and it received the letters of eligibility. The consultant who submitted the previous applications was a company called Wight. That's all I know at this point.

The Bensenville fire protection district really doesn't need to do anything here. This case is really for the Village to complete as the former owner of those tanks. I would also suggest you reach out of the Village to discuss the fact you've been contacted about this and let them know what I have provided to you here.

If you have any questions, please do not hesitate to contact me. Thank you.

**Subject:** [External] LUST Fund & Tank Leak

Matt,

I am writing to see if you can direct me to the right person. Apparently, Bensenville FPD had underground fuel tanks removed like a decade ago. I only became aware of this when a remediation company emailed me to say there is still outstanding issues with this leak that need to be addressed. I assume this company found this info by search an IEPA site. In their discussions with me they stated that the Illinois OSFM has determined this site is eligible to access the UST Fund with a \$5,000 deductible. I know nothing about this fund or how it works. I

also know very little about tank leaks or what is still needed at our site. So is there somebody in your office who can fill me in on the UST Fund. Also, I know you employ "tank people" in your office. Is there any chance of somebody helping me figure out what is still outstanding and what should be involved in fixing it? My concern is I only learned about this via a cold call and I assume this info they are telling is true and they are getting this info from the IEPA. Don't want to start making decisions without knowing the facts, especially when Bensenville FPD is not financially stable right now. Feel free to give my cell 630-338-5539 and email out to anyone you see fit.

Thanks,

***Scott Walker***

Chief Walker,

I've attached an updated proposal for the continuation of the remediation of Leaking Underground Storage Tank Incident #20100251. The proposal is also addressed to your City Manager, as was requested with the previous proposal.

This Incident has already been deemed eligible for the Illinois Leaking Underground Storage Tank (LUST) Fund and the deductible has been met with previous work done on the Incident.

I've also attached information on Gabriel Environmental Services for your review.

Please let me know if you have any questions.

Thank you,

Nancy

Re: **LUST Closure – 500 S. York Rd, Bensenville, IL**

This proposal covers the next stages of the closure process to obtain a No Further Remediation (NFR) letter for open LUST incident 20100251.

Illinois EPA (IEPA) now requires the submission of a Stage 1 Report with analytical results from additional Early Action and Stage 1 Investigation sampling, plus an amended Stage 2 Plan & Budget based on the analytical results of this additional investigation.

- **Early Action/Stage 1 Site Investigation – Soil Borings** \$10,170 - \$15,200 +  
*6 borings around the perimeter of the tanks in native soil, with analysis for BETX/MTBE (all borings) and PNAs (1 boring) Borings will be drilled to 30' deep or groundwater, whatever is less.*  
  
*2 borings in the former tank cavity to obtain backfill samples, with analysis for BETX/MTBE and PNAs*
- **Stage 1 Site Investigation – Monitoring Wells** \$9,000 - \$12,000 +  
*IEPA requires the installation of 1 monitoring well north of the UST excavation and the re-installation of MW1 to 25'.*  
  
*Soil and groundwater analysis for BETX/MTBE. PNA analysis may also be required, depending on results of additional Early Action soil investigation.*
- **Stage 1 Report** \$5,500 - \$6,500  
*To report the results of the Stage 1 Investigation*
- **Amended Stage 2/3 Plan & Budget** \$6,500 - \$9,500  
*To update the Stage 2 Plan & Budget to propose additional work required after Stage 1 work is completed*
- **Stage 1 Reimbursement Application** \$950 - \$1,250  
*To request reimbursement from UST fund for some of the Stage 1 work completed by previous consultant and Gabriel's Early Action/Stage 1 work proposed above. This application may be submitted after IEPA approves the Stage 2 Plan.*
- **Additional Site Investigation – Plans, Field Work and/or Reports (if necessary)** TBD

**\* A \$5,000 deposit or village purchase order is required to initiate the project**

# GABRIEL

## Environmental Services

Illinois OSFM has determined this site is eligible to access the UST Fund with a \$5,000 deductible. That deductible was already satisfied with the reimbursement claim for the Early Action costs. Gabriel will endeavor to have the Fund pay for as much of our services as possible (as well as partial reimbursement for invoices from previous consultants), but we do not guarantee 100% re-imbusement. Payment for Gabriel's invoices is due within 30 days of the date of the invoice and is not dependent on reimbursement from the UST fund.

The above includes the requisite forms, paperwork, etc. plus up to one hour of IEPA liaison. We would note that there may be added costs beyond the above. After the initial site work is completed, IEPA may require additional sampling, analysis and/or reporting prior to issuing a No Further Remediation (NFR) letter. This agreement authorizes Gabriel to complete all necessary work to obtain the NFR Letter.

Signature: \_\_\_\_\_  
Print Name: \_\_\_\_\_  
Company: \_\_\_\_\_  
Title: \_\_\_\_\_  
Date: \_\_\_\_\_

The Client's signature above constitutes acknowledgement and agreement to the terms and conditions included on all pages of this contract. The Client further authorizes Gabriel to undertake and provide all of the work and services set forth above. In the event that Gabriel does not undertake or provide all of the work or services set forth above, or Gabriel's professional time spent on the matter is less than the maximum amount of time set forth above, then Gabriel shall adjust the final charges accordingly on the invoice.

### Terms & Conditions

1. Client must provide plat of survey, real estate PINs, and legal description for the subject property. Additionally, an IRS W-9 form and real estate deed is required if seeking reimbursement from the LUST Fund.
2. Prior to any sampling, utilities will be marked by the appropriate authorities. Joint Underground Locating Information for Excavators (JULIE), DIGGER, or another proper locating service will be informed to notify utilities of digging and allow for marking of the utilities' underground lines. These services require at least 48 hours to mark the sites.
3. Client is responsible for marking any private utility lines or other subsurface structures prior to Gabriel mobilizing to the site. If Client is unable to mark these private utilities, Gabriel reserves the right to hire a private locator at the Client's expense. Gabriel will take all reasonable precautions to avoid damage or injury to subsurface structures or utilities. Client agrees to hold harmless and indemnify Gabriel against any and all claims, payments or other liability resulting from unknown, unmarked or inaccurately marked utilities, subsurface structures, or non-normal subsurface conditions at the Property.
4. Payment terms are Net 30 days from the date of invoice (unless specifically stated otherwise on the invoice), not including any requested deposit which is due before work commences. If this deposit is not received by the time the work is completed, payment in full will be required before Gabriel will issue the report or discuss the findings with Client. Payment is not contingent upon the closing of a transaction or the ability to receive financing for the property. Payment is not contingent upon approval of any submission to the Illinois EPA. A difference of opinion on a question of professional judgment shall not excuse the Client from paying for services rendered under this contract. A finance charge of 1.75% per month will accrue on any balance due that is not timely paid. Client also agrees to pay all costs of collection of any balance due, including collection costs, reasonable attorneys' fees and court costs.
5. Gabriel shall perform its services consistent with the professional skill and care ordinarily provided by environmental consultants practicing in the same or similar locality under the same or similar circumstances. This standard of care shall be judged as of the time the services are rendered and not according to later standards. Gabriel makes no other guarantee or warranty, expressed or implied, with respect to its services.
6. Gabriel's liability for damages under this contract shall be limited to the amount paid under this contract. In no event shall Gabriel be liable for indirect, consequential, special, exemplary, punitive or other similar damages.
7. This contract is fully integrated and constitutes the entire agreement between the parties with respect to its subject matter, and supersedes all other prior or contemporaneous communications (whether oral or written) between the parties. Should the contract be cancelled after work was begun, client agrees to pay for all work completed at the time of cancellation.
8. Facsimile signatures shall be sufficient for purposes of executing this contract.
9. The terms of this contract shall be governed by the laws of the State of Illinois

## COMPANY HISTORY

**Gabriel Environmental Services** is a multi-disciplined environmental consulting firm founded in 1973. Since its establishment more than 40 years ago with only three employees, Gabriel has grown to become one of the largest and most respected environmental firms in the Midwest.

Gabriel provides environmental testing, monitoring, and consulting services to industrial, commercial, and governmental agencies. The company has wide experience in all media: water, air and soils, with specializations including Phase I Environmental Site Assessments, indoor air quality testing and air compliance, and subsurface soil investigations and remediation.

Gabriel's full-service NELAC-certified laboratory handles both organic and inorganic analyses. The lab is equipped to provide analysis for wastewater and stormwater, soil investigation and remediation from LUST incidents, hazardous waste sites, OSHA compliance, waste disposal, and asbestos.

Gabriel's main headquarters and laboratory are located in Chicago, Illinois. Branch offices are located in Mt. Prospect, Illinois; Rockford, Illinois; Highland, Indiana; Madison, Wisconsin; and Sturtevant, Wisconsin. Gabriel owns Turnkey Environmental Consulting, a key operating division of the company. Gabriel also partners with Environmental Services Group, a laboratory and consulting group located in Indianapolis, Indiana.

Gabriel's 1,000+ clients are located throughout the Midwest, and include Fortune 500 companies, financial institutions, major developers and real estate organizations, manufacturers, hospitals and health care organizations, governmental agencies, and educational institutions.

To respond to the needs of our clients, Gabriel employs over 50 staff members. These individuals include engineers, chemists, geologists, hydrogeologists, and technicians with many years of experience and training in the broad scope of environmental management and laboratory analysis.

## COMMITMENT TO SUSTAINABILITY

*From the beginning, Gabriel has been at the forefront of best practices in environmental management.*

*We are vigilantly mindful of the impact of toxic chemicals and biochemicals on the environment and continually seek better ways to minimize them in the air, water and ground.*

*Our commitment began long before the issue had reached today's headlines.*

*Gabriel's Nissan Leaf is charged with electricity generated by our solar panels to make it a true zero emission vehicle.*

Our commitment to sustainability is daily and ongoing. Our priorities and accomplishments include:

- Recycling paper, plastic, metal, glass, batteries, electronics, and cell phones
- Creation of a giant rain barrel system, with a 7,000-gallon tank and a 15,000-gallon tank
- Planting trees, plants, and flowers to help reduce our carbon footprint (we have won the City of Chicago landscape award eight times, including four First place finishes)
- Installation of solar panels on our roof (used for both electricity and hot water)
- Installation of two geothermal energy systems
- Using only reusable energy at our Chicago, IL and Sturtevant, WI offices
- Using CFL bulbs and giving them out free to employees and clients
- Giving employees and clients reusable cloth bags for grocery shopping, etc. (we often deliver reports in these bags instead of envelopes)
- Using recycled or FSC-certified/sustainable paper
- Subsidizing new bikes to encourage staff to ride to work
- Driving hybrid and electric vehicles as part of our fleet, including one of the first Nissan Leaf all-electric vehicles in Illinois
- Composting food scraps from our kitchen (with the finished compost being used in our gardens)
- Winning the 2011 and 2014 Governor's Sustainability Award

services*

Throughout our nearly 40 year history, Gabriel Environmental Services has been dedicated to providing practical and economical solutions to our client's regulatory and compliance needs.

We are the only environmental consulting firm in the area to offer consulting services in water, air and soil, as well as having a full-service laboratory on-site to handle any necessary analysis.

By having the ability to solve all of your environmental problems in-house, Gabriel can save you time, money, and hassle.

- Phase I Environmental Site Assessments
  - Traditional (ASTM E1527-00)
  - AAI-Compliant (ASTM E1527-13)
  - Phase ½™ Limited Environmental Site Assessment
- Property Condition Assessments (PCA)
- Phase II Environmental Site Investigations
  - Soil Borings
  - Magnetic Survey
  - Asbestos
  - Lead Paint
  - Mold
  - PCB Wipes
- Structural Borings
- UST Removal and Abandonment
- Contaminated Soil Removal
- Illinois EPA Site Closure
  - Leaking Underground Storage Tank (LUST) Program
  - Site Remediation Program (SRP)

## PHASE I ENVIRONMENTAL SITE ASSESSMENTS

### Project Approach

Gabriel Environmental Services conducts Phase I Environmental Site Assessments to meet or exceed guidelines established in ASTM E1527, including the All Appropriate Inquiries (AAI) regulations. The site is investigated to attempt to identify any potential chemical and physical hazards on the site. The following issues are addressed:

- Subject Site and Surrounding Site Conditions
- Regulatory Compliance Evaluation/  
Environmental Conditions
- Air Emissions
- Asbestos Containing Materials
- Hazardous Materials and Wastes
- Historical Evaluation
- PCB Containing Equipment
- Soils
- Underground Storage Tanks
- Water Sources and Discharges

Gabriel personnel conduct a visual examination of the site and surrounding properties. Owners, principals and/or on-site managers are interviewed. With AAI-compliant Phase I's, neighboring property owners and/or occupants are contacted as needed.

Turnaround time is typically 1½ to 2 weeks (3 to 4 weeks for an AAI-compliant report) but is reliant upon the availability of information from State and local agencies, as well as cooperation from all parties. Accelerated turnaround is usually available upon request.

All of Gabriel's Phase I assessments are performed or reviewed by Environmental Professionals (EPs), as defined by the Environmental Protection Agency (EPA) under their All Appropriate Inquiry regulations.

In addition, Gabriel offers the following research tools:

- Regulatory database information
- Availability of Sanborn or other fire insurance maps
- Extensive in-house collection of aerial photographs and USGS Quads

[www.gabrielenvironmental.com](http://www.gabrielenvironmental.com)

*Gabriel has performed hundreds of Phase I Environmental Site Assessments per year, for each of the past 15 years.*

*Clients include a variety of lending institutions, developers, lawyers and property owners/buyers.*

*Our work is accepted by over 350 Midwest and national institutions.*

## PHASE ½™ ENVIRONMENTAL SITE ASSESSMENTS

*Gabriel recommends performing a Phase ½ Assessment instead of a Transaction Screen.*

*Without the benefit of a site visit and relying almost completely on information from the current owner, a Transaction Screen can miss important environmental information. Examples include:*

- *A fill port for an unregistered Underground Storage Tank*
- *Asbestos-containing materials (floor tiles, ceiling tiles, pipe wrapping, etc)*
- *Previous environmental conditions, prior to the current owner*

Gabriel staff developed our Phase ½ approach to environmental site assessments in response to demands for a more thorough assessment than a simple transaction screen but a less intense investigation than a full Phase I. Ideal properties for a Phase ½ include residential and small commercial properties where it is not believed any serious environmental concerns exist.

A Phase ½ evaluation attempts to ascertain, on a *limited* basis, whether certain environmental liabilities or risks exist. The following issues are addressed:

- Subject Site and Surrounding Site Conditions
- Underground Storage Tanks
- Asbestos
- Hazardous Materials and Wastes
- PCBs
- Visible Soil Conditions

A Phase ½ does not include a historical search or a regulatory compliance search of the surrounding properties. This report does not meet ASTM standards for a Phase I Environmental Site Assessment (E1527-00 and E1527-13) or All Appropriate Inquiries standards (AAI) as defined by the EPA.

A Phase ½ will give the property owner and buyer, as well as their lender, very close to the same level of assurance as a Phase I on low-risk properties, without a full Phase I's time or expense. Gabriel's Phase ½ assessments are performed by the same technically trained staff as those who perform our Phase I's, so our clients are assured that their properties receive a high-quality assessment.

## PROPERTY CONDITION ASSESSMENTS

*A Property Condition Assessment (PCA) is much like a home inspection, but for a commercial property.*

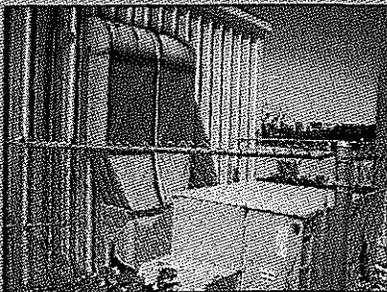

*It is designed to protect investors from unforeseen issues that can entail costly overhauls or devaluation down the road.*

*A PCA is used to assess current building and site conditions, remaining useful life and projected costs for upgrades and repairs.*

A Gabriel Property Condition Assessment (PCA) evaluates all building systems against current codes, assesses any structural or architectural issues, and considers the need for any critical site improvements. Our PCA report includes:

- HVAC, Electrical and Mechanical Systems Inspection
- Zoning and Building Code Compliance Evaluation
- Fire and Safety Systems Analysis
- ADA Audit (Americans with Disabilities Act)
- Structural and Building Envelope Integrity Assessment

Gabriel will also include the expected useful life and replacement cost estimates, as well as immediate & short-term repair recommendations.

## PHASE II ENVIRONMENTAL SITE INVESTIGATIONS

*Gabriel can handle your Phase II investigation needs in-house, which saves you time, money and hassle. We are proud to have our own:*

- *NELAC-certified laboratory, for both organics and inorganics analysis*
- *Soil boring rigs, both truck-mounted Geoprobos and augers, as well as hand-held Geoprobos for hard-to-reach spaces*
- *Magnetic detectors, for locating underground objects such as storage tanks (USTs)*
- *Sampling equipment for asbestos, lead, mold, and PCBs*

Phase II services are designed to investigate potential environmental issues which have been identified previously by a Phase I Environmental Site Assessment (or occasionally via other means). These Phase II investigations generally follow these areas of concern:

- Subsurface soil investigation
- Groundwater monitoring well installation and sampling
- Magnetic survey
- Asbestos sampling
- Lead sampling
- Mold sampling
- PCB sampling

## Subsurface Soil Investigations

*A Subsurface Soil Investigation generally consists of soil borings, laboratory analysis and data assessment. After the level and extent of contamination are established, the owner, buyer or lender (or occasionally the Illinois EPA) decides if formal closure is necessary or desirable for the property.*

*Gabriel is the only Chicago-area consulting firm that can handle all aspects of the investigation in-house.*

The number of soil borings performed during a subsurface soil investigation depends upon the environmental conditions requiring further investigation. Examples include:

- Size and configuration of underground storage tank(s) on the property, or
- Soil staining which indicates that a liquid contaminant spilled on the ground in sufficient quantities to cause subsurface contamination, or
- Neighboring property usage (eg: dry cleaner, industrial facility, leaking underground storage tank, etc)

Prior to any sampling, utility locations are marked by the appropriate authorities utilizing DIGGER, JULIE or other appropriate public services for the area.

Gabriel utilizes both small, portable direct-push soil boring units and truck-mounted Geoprobe units. Portable units are particularly useful in collecting samples from tight spaces, basements, bottoms of excavations and slopes of small hills. A Geoprobe makes it easier to obtain deeper subsurface samples while leaving the site undisturbed.

Our units are fully generator equipped so that boring can take place even when power is not available. Gabriel also has proper tooling for boring through 14"+ of asphalt and concrete.

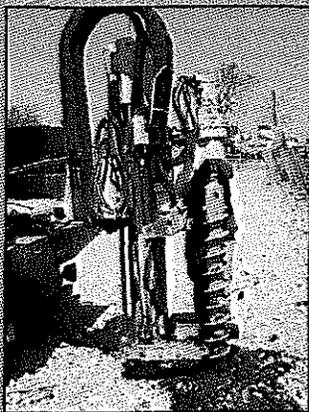

Soil samples collected in the field are screened with a Mini Rae Photoionization Detector (PID); soil types are described; and visual and olfactory indications are noted. A portion of each sample is placed into a clean plastic bag. The probe of the PID is inserted through the seal of the plastic bag to measure the concentration of airborne photoionization gases present in the area over the soil sample. The PID readings are used to provide relative levels of contamination in the soil samples.

Selected samples are submitted to the laboratory for analysis. In-house analytical capability includes BTEX, VOCs, SVOCs, PCBs, priority pollutants, trace metal analysis, Toxicity Characteristic Leaching Procedure (TCLP) and a number of other tests. Each sample is analyzed under a comprehensive Quality Assurance Program.

## Groundwater Monitoring Well Installation and Sampling

*The Illinois EPA requires groundwater monitoring wells to be installed for site closure if any groundwater is encountered during the site investigation.*

*The monitoring wells can help determine the extent of any on-site contamination, as well as ascertain if contamination is migrating off-site.*

During the course of a Phase II or Site Investigation, it may be necessary to determine if contaminants have affected the area's groundwater. In order to do so, Gabriel can install and sample groundwater monitoring wells.

Gabriel offers the following monitoring well services:

- Installation of monitoring wells to a depth that intercepts the local groundwater regime and allows for water table fluctuations.
- Sampling of groundwater, in accordance with professional standards. Each monitoring well is purged prior to sampling using a PVC purge bailer or pump and then sampled using a disposable PVC sampling bailer.
- Analysis of groundwater samples in our NELAC-certified laboratory, as required by Illinois EPA for closure sampling.
- Abandonment of monitoring wells after project is complete.

Gabriel can also use the monitoring wells to conduct elevation surveys to determine the groundwater flow direction and hydraulic gradient.

Our staff is able to calculate hydraulic conductivity for site closure purposes utilizing the groundwater monitoring wells and Levelogger® equipment.

## Magnetic Surveys

*Magnetic surveys are often conducted as part of a more wide-ranging site investigation, including soil borings and analysis.*

*By using multiple investigation techniques, Gabriel can provide more comprehensive results in response to potential environmental contamination.*

Magnetic surveys are commonly performed as part of a Phase II Environmental Site Investigation in order to determine the presence of a possible Underground Storage Tank (UST). During the course of the survey, Gabriel staff attempts to observe magnetic anomalies, and if found, determines whether the shape and orientation of the magnetic anomalies correspond to the dimensions of a possible UST.

Gabriel performs magnetic surveys using a Fisher Pipe and Cable magnetometer, operated in either the inductive and conductive mode (or both), depending on the site-specific circumstances.

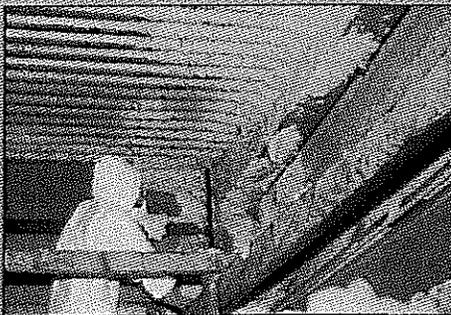

The magnetic survey does not guarantee the presence or absence of a UST, but it can often identify large metal objects beneath the ground, without digging up the suspected area.

## Asbestos, Lead, Mold and PCB Sampling

*Public awareness about the toxicity of lead, asbestos and mold has greatly increased in the last 20 years and has focused much attention on the potential health problems associated with these contaminants.*

*Gabriel has significant experience in sampling, testing, and monitoring when the existence of any of these substances is in question.*

### **Asbestos**

Exposure to asbestos can cause major damage to the lungs, including asbestosis, mesothelioma and lung cancer. Virtually everyone is exposed to asbestos, but only long-term inhalation of asbestos fibers at high concentrations is considered a health concern. Gabriel's Phase I reports identify suspected asbestos-containing materials (ACM's), including ceiling tiles, floor tiles, insulation, plaster, and other materials. Gabriel provides services for inspection, sampling, and monitoring asbestos by IDPH licensed asbestos building inspectors. Gabriel's lab personnel have been trained by the McCrone Research Institute and at the National Asbestos Training Center.

### **Lead**

Lead in drinking water, soil and deteriorating/chipping paint can lead to a host of adverse behavioral, developmental and neurological conditions, with children being especially susceptible. Gabriel conducts on-site sampling and testing in our NELAC-certified laboratory.

### **Mold**

In recent years, mold has become one of the most high-profile environmental concerns. Molds can grow on cloth, carpets, leather, wood, sheet rock, insulation, and on human foods when moist conditions exist. Mold has negative effects on human health, including allergies, infections, irritation, and toxic reactions. Depending on the type of mold present, the U.S. Department of Health recommends removal from exposure through remediation. Gabriel provides services for sampling, monitoring, and identifying mold. Gabriel's microbiologists have been trained with the latest mold identification and sampling techniques.

### **PCB**

Polychlorinated Biphenyls (PCBs) are specifically regulated by the Toxic Substance Control Act (TSCA) of 1980. TSCA is charged with regulating the manufacture of substances it considers toxic and harmful to health and the environment. Although PCBs had many uses, the most widespread use was in the manufacture of nonflammable dielectric fluids (askarels) for electrical transformers, capacitors, and other liquid-cooled electrical equipment. Gabriel can sample for PCBs using an industrial hygiene protocol to evaluate surfaces for contaminants. The samples are analyzed using USEPA protocol in our laboratory.

## STRUCTURAL BORINGS

*Before designing a building, it is important for architects and developers to know the physical soil conditions of a property.*

*A building foundation built over clay will be treated differently than sand and proper structural support will need to be incorporated.*

Gabriel can assist in determining soil types as well as the soil bearing capacity to allow architects and engineers to make the correct recommendations. This can be done in conjunction with environmental borings, saving additional time and expense.

### **What Does Gabriel's Structural Subsurface Investigation Report Include?**

- Summary of soil borings and relative soil bearing values
- Description of physical soil characteristics
- Detailed map with locations of soil borings
- Table with soil bearing capacity for each soil boring at various depths  
(typically 12'-15' or 8'-12' with a portable rig)
- Grade differences, if requested
- Environmental analytical data, if requested

Using either our truck-mounted Geoprobe rigs, which are smaller than most auger core units, or other small portable units, Gabriel will collect soil samples at various depths to determine soil conditions. Through the use of direct-push technology, our borings leave very little debris, and all holes are refilled to leave the site undisturbed.

Our geotechnical borings are quicker and less costly than those performed by a large auger rig. Typical cost savings are 30-50%. Geoprobos are more limited in their depth, but are ideal for buildings four stories or less.

## UST REMOVAL AND ABANDONMENT & CONTAMINATED SOIL REMOVAL

*Underground Storage Tanks (UST) have been widely used throughout the country to store petroleum-based products.*

*Since 1989, regulations have been in effect in Illinois to either safely upgrade these tanks or remove them, impacting the purchase and/or development of property.*

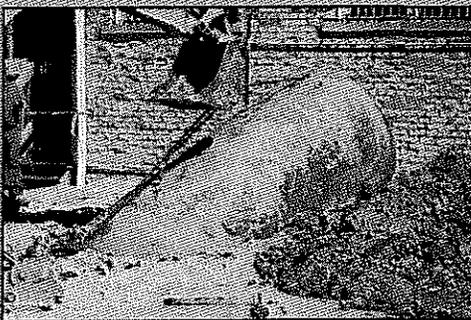

When an Underground Storage Tank (UST) must be removed or abandoned-in-place, Gabriel can help make this process as easy and cost-efficient as possible.

### **Removal/Abandonment Oversight Services include:**

- Consultation with client about appropriate tank options
- Hiring a subcontractor to remove or abandon tanks
- Obtaining proper tank removal/abandonment permits
- Oversight during removal/abandonment process to ensure proper procedures are being followed
- Sampling the excavation area to test for contamination
- Acting as a liaison with the State Fire Marshal representative who is on-site to determine if a LUST Incident exists

### **Contaminated Soil Removal Oversight Services include:**

- Performing site sampling and testing prior to contaminated soil removal
- Hiring subcontractors to perform soil excavation, haulage, and disposal to certified hazardous waste landfill
- Implementing safety programs and coordinating contractor training
- Oversight during contaminated soil removal to ensure proper procedures are being followed
- Obtaining closure samples during removal process
- Completing necessary IEPA reports and forms following the cleanup

## SITE CLOSURE

*Gabriel meets or exceeds all of the Illinois EPA requirements for environmental consultants.*

*Through both the LUST and SRP programs, Gabriel has obtained more than 250 No Further Remediation (NFR) letters for our clients.*

Gabriel provides buyers, developers, and lenders with services that can help to identify contamination issues, expedite cleanup where appropriate, and reduce costs. We have been helping contaminated site owners/operators comply with IEPA regulations since the inception of the risk-based cleanup programs.

### **Evaluation**

The process of evaluating potential contamination of a property begins with the preliminary site assessment, usually conducted as a part of the Phase I. Representative sampling per IEPA protocol is performed in conjunction with a Phase II Site Investigation. Samples are then analyzed utilizing USEPA-SW-846 guidelines in Gabriel's in-house laboratory.

### **Closure using TACO**

Contaminated sites are generally processed through two IEPA programs:

- Leaking Underground Storage Tank (LUST) program
- Site Remediation Program (SRP)

Both the LUST and SRP programs follow the guidelines of TACO (Tiered Approach to Corrective Action Objectives). Previous to TACO's implementation in the early 1990's, the IEPA use a "one-size-fits-all" approach for remediation. Today, with TACO regulations based on site conditions and exposure risks, many contaminated sites can obtain a No Further Remediation (NFR) letter with little or no soil removal. The NFR letter is the final goal of both the LUST and SRP programs, and it indemnifies current and future owners of possible environmental hazards.

Gabriel has been involved with TACO since its inception, and our geologists and engineers keep up-to-date on any changes that occur with federal or state contamination or cleanup regulations.

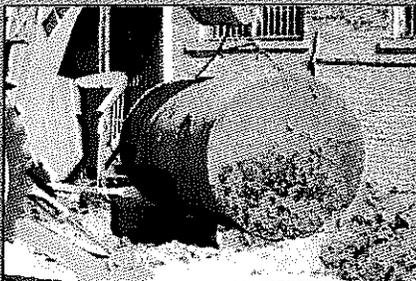

## Leaking Underground Storage Tank (LUST) Program

*Each state maintains its own LUST fund for reimbursement of cleanup of Leaking Underground Storage Tanks. Gabriel can help you cut through the red tape and expedite reimbursement.*

*Since 1997, Gabriel has helped process hundreds of LUST reimbursements. Our thorough knowledge of the LUST reimbursement program helps you get payment.*

*We will handle everything, including:*

- *Eligibility and Deductible Application*
- *Preparation of budgets*
- *Completion of LUST Fund reimbursement package*

When an Underground Storage Tank (UST) leaks while it's in the ground or upon removal, it's known as a Leaking Underground Storage Tank (LUST). In this case, the Office of the State Fire Marshal declares the LUST Incident to the Illinois Environmental Protection Agency (IEPA). An IEPA case manager then takes over and monitors the situation. The IEPA keeps track of all open incidents.

### What is LUST Closure?

Closure of a LUST Incident entails demonstrating to the IEPA that the site is not contaminated above harmful levels, using separate guidelines for commercial and residential properties. Official closure results in the IEPA issuing a No Further Remediation (NFR) letter for the incident.

Once a release has been reported, Gabriel will assist in filing all of the necessary technical forms, including:

- 20-Day Certification
- 45-Day Report
- Site Investigation Plan/Budget (Stage I, II and III)
- Site Investigation Completion Report
- Corrective Action Completion Report and Professional Engineer Certification

Using TACO rules, Gabriel:

- Conducts a site investigation using soil borings and groundwater monitoring wells
- Determines how much and what kind of contamination is on the site, as well as where it is
- Can close out a site with a Site Investigation Completion Report if the site is clean
- Applies corrective action if the site isn't clean, including partial or complete soil removal, or alternative forms of remediation (including bioremediation or chemical remediation)
- Closes out the site with a Corrective Action Completion Report after clean-up is completed

## Site Remediation Program (SRP)

*While UST's can lead to contamination due to their location and contents, contamination can also come from other sources.*

*Aboveground storage tanks, hazardous-waste drums, electro-plating operations, and dry cleaning operations are just a few examples of other potential sources of contamination.*

The Site Remediation Program (SRP) is a voluntary cleanup program, similar to the LUST program but it is open to all contaminated sites.

Remediation Applicants take part in this program in order to obtain review and evaluation services from the IEPA with the goal being the receipt of a No Further Remediation (NFR) letter from the agency. The site is then considered closed and no longer represents a threat to human health or the environment.

Once contamination has been delineated by soil borings, Gabriel will assist you in determining the correct course of action to get the site declared clean by the IEPA, including the following reports:

- Site Investigation Report
- Remediation Objectives Report
- Remedial Action Plan
- Remedial Action Completion Report

Using TACO rules, Gabriel:

- Conducts a site investigation using soil borings and groundwater monitoring wells
- Determines how much and what kind of contamination is on the site, as well as where it is
- Applies corrective action if necessary, including partial or complete soil removal, or alternative forms of remediation (including bioremediation or chemical remediation)

## LABORATORY SERVICES

*Gabriel operates a full organics and inorganics laboratory in its Chicago headquarters.*

*With a full range of instruments and technical capabilities, most analysis required can be completed in-house.*

*Our laboratory is NELAC-certified, under the nationwide certification program.*

### **Quality Control**

Gabriel ensures accurate and reliable analytical data through a Quality Assurance Plan that is reviewed and updated annually.

Gabriel has participated in the USEPA Water Pollution (WP) and Water Supply Studies (WS) since the mid-1980's. In these programs, the USEPA sends ampules containing analytes of unknown concentrations and laboratories analyze these samples following routine analytical procedures. The USEPA evaluates the submitted results and Gabriel receives a listing of true concentrations and an "acceptable range" for each analyte.

Gabriel has also been audited by the Illinois Environmental Protection Agency and the Wisconsin Department of Natural Resources. In addition, many clients will audit the laboratory by conducting an on site inspection and/or by submitting performance evaluation samples.

### **Operations**

A Chain of Custody is created for each sample at the point of origin and maintained through analysis and thereafter in the client's file. Samples are stored in a secure area. Inorganic samples are stored in a large walk-in cooler, and several refrigerators hold separately organic and drinking water samples. Standards, reagents, sample fractions, extracts, leachates, and other contaminating sources are stored away from samples. Samples are cooled to 4°C±2°C after receipt. A computer database, Laboratory Information Management System (LIMS) tracks all samples through the analytical sequence. Other accountable documents used by Gabriel include logbooks, instrumentation printouts and reports.

### **Personnel**

Laboratory personnel are primarily comprised of full-time chemists and part-time technicians. Nearly all full-time analysts have a minimum of a B.S. degree in a field of science. Virtually all part-time analysts have a minimum of two years of college chemistry, and most are currently pursuing a degree in chemistry, biology, or engineering. Training is accomplished through the Laboratory Manager, Quality Control Supervisor, and various outside training seminars.

*Environmental Services*

## KEY PERSONNEL

### **John Polich, P.E. – President**

John graduated from the University of Wisconsin with a B. S. in Civil Engineering. He has more than 45 years of experience with air, water, soils, hazardous wastes, and other environmental issues. Over this period, John has performed and reviewed Phase I/II property assessments, designed waste treatment facilities, and evaluated air pollution conditions. His expertise includes UST removal management, remedial options and alternatives, and regulatory and OSHA compliance. He specializes in Illinois EPA and MWRD liaison, and has extensive knowledge of the Drycleaner Environmental Trust and LUST funds. John is a registered Professional Engineer in Illinois and Wisconsin and has completed OSHA 40-hour Hazwoper training.

### **Steven C. Sawyer, CHMM – Executive Vice President**

Steve graduated from Iowa State University with a B.S. in Environmental Science and Zoology. He has more than 40 years of experience in formulating sampling and testing programs for air, fuels, water, soils, and wastes. He conducts Phase I Environmental Site Assessments and oversees all Phase I's that Gabriel's staff performs. Steve is a Certified Wastewater Treatment Plant Operator (Class II) and has also been responsible for completion of numerous LUST & RCRA closures, Spill Control and Countermeasure Plans (SPCC's) and Stormwater Pollution Prevention Plans (SWPPP's). Steve is a Certified Hazardous Materials Manager (CHMM #2800) and an IDPH Licensed Asbestos Building Inspector. He has completed OSHA 40-hour Hazwoper training and is a member of the AHMP, IHMM, AACT, and various other professional organizations.

### **William Gray – Vice President – Northwest Indiana Division Manager**

William (Bill) graduated from Southern Illinois University with a B.A in Microbiology. Bill has nearly 40 years of experience with industrial, governmental, and consulting sectors providing analytical and consulting management. He has a substantial background in the sampling and analysis of airborne contaminants, solid and liquid hydrocarbons, soil, water and various types of wastes. Bill has developed numerous on-site sampling and analysis projects at commercial and industrial operations. Bill is experienced in performing Phase I and II Environmental Assessments, as well as mold, asbestos and lead paint inspection. He is an IDPH Licensed Asbestos Building Inspector in Illinois and Indiana and has completed OSHA 40-hour Hazwoper training.

# GABRIEL

*Environmental Services*

## KEY PERSONNEL

### **Christina Zvonarits – Laboratory Supervisor**

Christina graduated from the University of Illinois at Chicago with a B.S. in Chemistry. She has more than 10 years of analytical experience with a focus in wet chemistry and GC/MS, as well as responsibilities in QC/QA, laboratory safety, and project management. Christina's expertise includes analytical method development, data validation, and training of laboratory personnel. Additionally, she has excellent knowledge of local, state, and federal government regulations and EPA approved methods. She has completed OSHA 40-hour Hazwoper training.

### **Paul Basso, P.G. – Remedial Services Manager**

Paul graduated from Illinois State University with a Bachelor of Science in Geology and has continued his education with post-graduate studies in Hydrogeology. Paul has more than 30 years of experience in the environmental services industry, and has performed asbestos inspections, chemical and air monitoring, and Title V, RCRA, wastewater, and stormwater permitting. He also has conducted and reviewed Phase I Site Assessments and Phase II Soil Investigations, and is currently the Phase III Remediation Supervisor. Paul specializes in liaison with the IEPA's SRP and LUST programs and is thoroughly familiar with all of the TACO regulations and alternative forms of remediation. He is a Licensed Professional Geologist in Illinois and has completed OSHA 40-hour Hazwoper training.

### **Natalie Neuman – Assessment Services Group Leader**

Natalie graduated from the University of Illinois at Chicago with a Bachelor of Science in Biology and has continued her education with post-graduate studies in Environmental Biology. Her experience includes more than 20 years of Phase I Site Assessments and wet chemistry laboratory analysis. Each year, Natalie personally performs hundreds of Phase I Environmental Site Assessments and is responsible for assigning and reviewing all incoming Phase ½ and Phase I projects that Gabriel handles. She specializes in Phase I surveys of industrial properties, gas stations and dry cleaners. Natalie has also completed coursework in the Microscopic Identification of Asbestos and has completed OSHA 40-hour Hazwoper training.

**Subject:** Alarm Billing Payment

Evan,

The fire district has never received any payment of our share of the fire alarm billing to date. I know there was a ton of back and forth on this topic that was not done between you and I. From what I understand, the Village was going to pay the fire district their percentage of what was collected quarterly. Do you know when the first quarterly payment will be made to us?

Thanks,

***Scott Walker***

Chief,

The first remittance to the Fire District will be approved next Tuesday inclusive of 2020. The next payment will be made in April for Jan-March 2021. As of January, we've imported the process in our ERP system which should remove the manual tracking that we were previously doing.

**Subject:** RE: Alarm Billing Payment

Good Morning,

Total Invoiced thru November 2020 \$55,150.00

Total paid \$ 10,500.00 of the paid invoices - \$8,450.00 were Fire Departments.

December has not been billed out – Due to Tia's absence. She has the files and works with Bill Martin. The billing will done exclusively through Munis starting January "incident reporting". This will be much easier to track and less cumbersome.

I will make the next payment to the Fire Department in April, this will be for all payments received for Jan-March.

Best regards,

Sharon Guest

Chief,

Good talking to you and thank you for committing a BFPD paramedic to monitor the 15min recovery room for the vaccination event that we are looking to hold at Fenton High School for Bensenville resident 65+. The tentative dates for the event will be:

- Shot #1: February 13, 9am-5pm
- Shot #2: March 6, 9am-5pm

Thanks in advance,

eks

**Subject:** 700 W. Foster Avenue - Fire Station Conveyance and Subdivision; Attorney Client Privileged Communication

Good evening Scott,

As you know, the Village agreed to convey Fire Station #2 to the Bensenville Fire Protection District No. 2 pursuant to an Intergovernmental Agreement that was approved by the Village Board on April 30, 2007. Unfortunately, the Village does not have an executed copy of the Exhibit referenced in the Intergovernmental Agreement which details the process and procedures for the conveyance. That being said, the Village needs to convey the Fire Station and intends to subdivide the property located at 700 W. Foster Avenue as part of the conveyance so that the Village will retain ownership of Well #7 that is located on the property. Attached is a copy of the proposed Plat of Subdivision for reference. Lot 1 on the Plat will be conveyed to the District.

The conveyance and Plat of Subdivision are exempt from the requirements of the Village's Subdivision regulations in Title 11 of the Village Code because the Village is acting as a Public Utility. Title 11 provides that the conveyance of land owned by a railroad or other public utility which does not involve any new streets and easements of access shall not be considered a subdivision and shall be exempt from the requirements of Title 11.

Title 11 defines Public Utility as: "Any person, firm or corporation, municipal department, board or commission, duly authorized to furnish, and furnishing under government regulations, to the public, gas, steam, electricity, sewage disposal, communication, telegraph or transportation of water as defined in 70 Illinois Compiled Statutes 905/10.3."

As the conveyance and Plat are exempt from the requirements of Title 11, the Plat will not require approval by the Community Development Commission.

The conveyance is also exempt from the requirements of the Plat Act because it is the conveyance of land owned by a railroad or other public utility which does not involve any new streets or easements of access.

We have prepared an Ordinance to authorize the conveyance and approve the Plat. Please let us know if you are okay with proceeding with placing the Ordinance on the agenda (likely for a meeting in February) for approval by the Village Board.

Do not hesitate to contact us if you have any questions or would like to discuss these matters further.

Thank you,

Evan,

I was informed by one of my Trustees that they spoke with Frank and confirmed the alarm fee split was going to be 70/30 with 70% going to the fire district. Can you confirm that Frank spoke with you about this and that the split going forward will be 70/30.

Thanks,

Chief Walker,

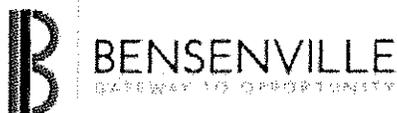

Thanks for the help your ambulance crew provided us at our senior vaccination event. I'm glad they were there, there was an individual that required transport to the hospital.

We put together a small montage from some of the voicemails we received: <https://vimeo.com/514380447> Feel free to share with your team/board.

Can we count on you guys again for March 6?

Greetings:

I just received a call from Julie stating that she and others at PW, who received the vaccine on Saturday, have received texts from Jewel citing a different location for their second shot.

She asked if it was going to be still held at Fenton or elsewhere. I let her know that the event will be at Fenton and that I have not heard otherwise. I suspect that she registered through the Jewel site separately – but I wanted to check and keep you in the loop.

We may get phone calls of confusion.

Any news on your end?

Evan,

My Board voted to move the fire district's alarm billing from the Village to the company we currently use for fire billing effective immediately. I need to know the last period that was billed out by the Village so I know where to start the billing with the new company.

Also, on an unrelated note. We'll be at the vaccination event on the 6th. Can you just confirm the location (Fenton I assume) and what the time period is this event.

Thanks,

***Scott Walker***

**Subject:** Tomorrow's Vaccine Event

For those that participated in the Feb 27 vaccine event:

As you know, we will be administering the second dose of the vaccine to our seniors tomorrow March 6 at Fenton High School. The event will be very similar to the previous one. Please arrive by 8am for a team meeting. We will begin vaccinating people at 9am and expect to conclude around 5pm. The second dose event are usually much smoother; there is less paperwork to collect, people are familiar with the process, and nerves are generally much more relaxed.

If you have any questions, please don't hesitate to ask.

Thank you for your participation in this important effort,

eks

I am reconciling the accounts for 12/31/2020 to make sure we pass them back accurately. We should have it to you by next Tuesday. We will provide all amounts outstanding as of the end of the year with copies of the statements sent to your residents. Please let your auditors know that we will be removing these values from our books as of December 31<sup>st</sup>, so they will need to recognize them as your receivables as of that date. If you or they have questions, then please give me a call. 630-350-3497

You will need to inform these residents of the change of remittance address. If we receive checks, we will attempt to catch them before cashing them and send them to your attention.

Please let me know if you have other concerns or questions.

Julie

John,

Thank you for the email...it is wonderful to hear that we were able to help out your team!!

Unfortunately, we do not have any Dive Well availability over the next 4 Sundays – we are completely booked with facility rentals for swim meets, lifeguard training and scuba training.

I do have availabilities on Sundays from 11a-3p on the following dates:

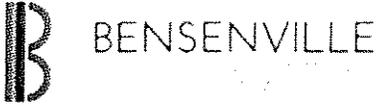

April 11<sup>th</sup>, 2021  
April 18<sup>th</sup>, 2021  
April 25<sup>th</sup>, 2021  
May 2<sup>nd</sup>, 2021  
May 9<sup>th</sup>, 2021  
May 16<sup>th</sup>, 2021

While these dates are currently available, we have been booking out quite quickly. If any of the above dates work for you and your team, I would urge you to choose dates to secure sooner rather than later.

Thank you,

Hi Ron,

I'm hearing through the grape vine that the subdivision at 83 and Devon is going to be vacated in the Spring. I'm wondering about training opportunities for the Fire District, possibly even burning. I'm wondering if you have any information on the plan up there, or if you could point me in the right direction. Thanks!

Chief I've been getting emails from the guys on a few over active trouble alarms.

1. 145 E Grand - St Charges Borromeo Church- Spoke with Shela- They are working with Chicago Metro to problem resolved.
2. 411 County Line- VictorWay. They are not answering the phone. I'm not able to physically go out there at the present time. Once able I will follow up..
3. 1004 W Irving- Dunkin Donuts- Made contact with the manager, Apparently they need new batteries. Waiting to hear back when repairs can be made.

**Subject:** RE: 24 S addison

Have made contact with Raleigh owner of 24 S Addison. He is in today and will have the panel looked at.

Made contact again with 1004 W Irving Dunkin Donuts. They are having difficulty finding an authorized company to work on their panel. I gave them a few suggestions. Hopefully they can locate a company to make the necessary repairs.

104 W Foster. The building is currently vacant and under contract to be sold. I've left a voice message with the current owner. Hopefully she can tell me if the building has been sold, who the new owner is.

**Subject:** 24 S addison

Ron,

Can you please check on 24 S Addison. We responded twice today to that location.

First one was for a broken sprinkler head around midday, the second was a short time ago (0200 hrs) for the pump run.

The second was found to be a false. However while responding there is no legend for the alarm panel to show how to reset alarm. There are just buttons labeled 1, 2, 3, 4. We got lucky and pressed the buttons and it worked to reset, but for a 8 story apt building we should have a easy to operate panel. Ie, acknowledge, silence, reset like most panels.

Thanks  
Lt Martin

**Subject:** 130 E George St.

Ron,

We responded for the AFA at 130 E. George St. The activation was due to a burnt up elevator motor on the first floor. We only had an activation because the smoke traveled through the trash chute and activated a smoke detector on the top floor. The detector in the mechanical room was a heat only. If this was something worse it would have been a delayed response. The unit was locked and tagged out by maintenance. Additionally, there were no elevator keys in the elevator box that worked. Can you look into this and possibly the other address in the complex? Thanks and if you have any questions let me know. The maintenance contact is Luis Rivera 773-664-9807.

Hello Ron,

Can you please investigate this location?

Crew called to location for the trouble alarm. Building occupant on scene stated the alarm has been beeping for some time now. Crew noted Annunciator panel in unit (A) was beeping. Annunciator panel would not reset nor silence. Alarm showing malfunction of NAC 5. Crew noted main FACP was in (E) unit of office complex. Unit E had no working Knox keys and was vacant. Crew spun the lock and gained entry to building. Alarm would not reset. Crew silenced alarm. Building occupant was instructed to notify alarm company. Both units A and E were secured/locked. Crew returned to quarters.

Thank you,

Lt. Hahn

**Subject:** 971 Supreme Fire Pump

Chief, I was just advised that the underground loop that feeds the risers from the fire pump is leaking water underground.

They will be abandoning the undergrounding piping and install new overhead pipes

Until this is complete the Fire Pump will be OUT OF SERVICE.

The sprinkler system and fire Alarm are up and running.

The building is only occupied by one or two people with little to no stock.

Please let the guys know.

I'll let you know when it is back in service.

**NOTE:**

They are having a similar issue at 1010 Foster, with the underground riser pipes leaking water.

They will not start that work at 1010 Foster until 971 Supreme is complete.

All systems are operational at 1010 Foster.

Heard from the contractor.  
They have a water leak in the roof  
It's leaking water in the bathroom just above the smoke detector.

Roof will not be repaired till Monday

Alarm company will put system in test to Monday.

Ron,

Earlier this morning around 3am crews responded for the activated fire alarm at this location. It was noted that the knox box was left open and no keys were inside. The FACP door has a guard latch that prevents us from gaining access without doing damage to the door, and ACDC was unable to get a hold of the keyholder. Looking through the windows in the front we noticed no problem and the building hasn't been stocked yet. Battalion 107 took the alarm out of service for 12 hours, expiring today around 3pm. Let me know if you have any additional questions.

Thanks,

Ron,

We responded to 110 E George earlier today for a fire alarm. The panel indicated zone 1, first floor. We were unable to find a problem or activated detector. The alarm would not reset. Building maintenance called the alarm out of service and stated they will call an alarm company out. Also, we have gone there the previous two shifts for an elevator shaft detector that has been going off for no apparent reason. Maintenance was made aware.

**Subject:** TLC Observed Fire Drill

Good afternoon Chief Walker! Happy New Year! Hope you are doing well!

I am reaching out because as of today, we are still required to set a date for our observed fire drill with Bensenville Fire Dept. Our students are still remote, but we need to set a **tentative date** within the upcoming months with hopes that our students will be present.

However, I have 2 questions:

1. We normally coordinate with Linden Towers when we do the drill as it is the same day they do the whole building alarm testing in October. Since we missed that timeframe, what are our options for sounding an alarm for the drill?
2. Our school will most likely return on a hybrid schedule: one classroom will be there in the morning (8a-11a) and the other in the afternoon (12p-3p). Are you able to assist with the drill twice? We can do 2 different days if that's easier for you.

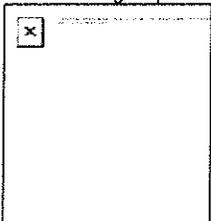

Let me know your thoughts. Thank you in advance for your help!

Thank you,

Ron,

This is a follow up to your follow up. The parking at 490 Supreme is unacceptable. I have just returned from an EMS run up there. Here are a series of four photos to show the parking. According to your email you have already spoke to management. Please use these photos and speak to them again.

As you can clearly see, the entry way is blocked with parking on both sides making entry with apparatus difficult. (Photo 1) The FDC has multiple layers of cars parked in front of it, delaying access. (Photo 2 and 3) The main exit for staff (door N3) has a car in front of it, possibly hampering egress. (Photo 4) If you need anything else please let me know, and I look forward to the reply from the management.

**Subject:** 1025 Industrial and 490 Supreme

Ron,

We responded to 1025 Industrial, Cardinal fence twice this morning for a malfunctioning SE dock heat detector activation. The zone was disabled. Also, the housekeeping in that building is non-existent. The access to the alarm panel was obstructed by building materials and there is barely a path to get around the building.

We also responded to an EMS call at 490 Supreme earlier last night. The company is allowing their employees to park anywhere on the property. Multiple vehicles were parked along the entrance, not in parking spots and up in front of the building. This provided access issues for our vehicles and will provide even bigger issues if there is a more serious incident there.

Good Afternoon,

I walked the building this afternoon with the occupant.

Showed her the faulty Beam Detector and a few other items with the fire alarm.

She will be calling, building maintenance for repairs to the fire alarm system ASAP

During our walk thru we discussed the housekeeping issues. Housekeeping items will be taken care of ASAP.

There are two key boxes for the building. One by the front door and the other by the sprinkler room in the back.

The keys in the front box worked for the front doors and the sprinkler room.

I placed a sprinkler room door key in the key box by the sprinkler room.

The main FACP and the annunciator panel my the front appeared to be in good working condition.

The panel in the dock only displayed and trouble signal for zone B.

Fire alarm system will be inspected when they come out for the beam detectors.

I will follow up next week on the fire alarm and the house keeping issues.

Got a couple for you fellas to follow up on.  
710 Foster- the whole building does not have keys. We spun the lock on 710 for a fire alarm. It was left in full fire due to a power outage.  
855 Golf- No fire panel in this building. Remotely monitored only.  
608 Country club- no entry keys, also we were let in by a keyholder and they have all the doors lock behind you, including egress routs. Is this ok?

Thanks

**Subject:** RE: Fire / Evacuation Drill Help Requested

Good morning,

We are still very interested in having the VPFD on-site for a fire drill during February 2021. We would like the VPFD on-site to view/witness our fire drill and provide direction if necessary, to increase safety evacuation efficiency. The drill will be conducted between the hours of 9 am and 3 pm. We are flexible in terms of scheduling and we will adapt to your department needs.

Please let me know which date below works best for your scheduling needs:

Tuesday, 02/16  
Wednesday, 02/17  
Thursday, 02/18  
Tuesday, 02/23  
Wednesday, 02/24  
Thursday, 02/25

We look forward to partnering with the VPFD to ensure the safety of our employees!

Morning.

I believe the unit that had burned food was unit 465. We spoke to the tenant, checked the unit, and found no problem. The alarm reset and crews were in service returning.

We did however notice that unit 451 rear door is not closing properly. We did report this to code enforcement and they should be in contact with you.

Please let me know if I can be of further assistance.

**Subject:** 971-991 Supreme

Ron,

Last night at 11:54pm we responded to the fire alarm at 971-991 Supreme. There was a broken sprinkler head in the loading dock area on the northwest side of the building. The affected sprinkler head was supplied through a remote riser, and the main drain for that riser was frozen solid from the inside and unable to be used. To mitigate the problem, we shut off the municipal water supply to the building and drained the whole system via the main drain outside of the FACP room. Ryan from Prologis was contacted and stated he was going to have the system serviced today. He was also instructed to call the alarm out of service, as it would not reset. We waited on scene until there was a noticeable pressure drop in the system to confirm it was isolated. Let me know if you need anything further from me.

Thanks,

FF/PM John Liberto

Hi Ron,  
We have our Fire Drill with you all scheduled for 3/8. As of today, students are still not back in the building and we believe we may be returning to school on 3/8. We need to give the staff and students some time to get acclimated back in the building so we would like to reschedule our Fire Drill.

Can we move the Fire Drill to **Monday 3/22?** It would still need to be in two sessions - one at 9:00am and the other at 1:00pm.

Let me know, thank you!

Good morning Ron!

Thanks for helping us out.

Like my email stated, these drill dates will need to be tentative as our students are not back in-person yet. So let's just shoot for the **2nd week of March**.

We are available:

Monday 3/8

Tuesday 3/9

Thursday 3/11

I mentioned that our program is split into 2 sessions - AM/PM. Therefore, we will need it done twice. It is up to you if you prefer the same day or if it needs to be 2 different days.

The time for the AM session, we would prefer around 9-9:30am

The time for the PM session, we would prefer around 1-1:30pm

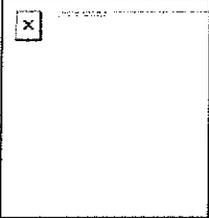

Let me know what date or dates (if you want to do it 2 separate days) are best for you that week. Thanks Ron!

Thank you,

Hello Ron,

We responded for the fire alarm and noted catastrophic failure of the sprinkler system. There was over a foot of water in the sprinkler/alarm room. The system had over 5 cracked pipes throughout. We shut down both OS&Y valves. This stopped the flow into the building but not the sprinkler room. The piping below the OS&Y was damaged as well. We informed the village water department of problem.

Looks like the main heat failed at 301 W Main. The pipe just above the main valve for the domestic water froze and burst. The sprinkler double detector valve also broke at the cleanout. Numerous fitting also froze and broke thru out the grid system. Sprinkler company has been notified and on their way to investigate and begin to make repairs. Fire Alarm Company has been called to inspect the system HVAC Contractor has been called to get the system back up and running.

Will keep you all up to date.

Hello Ron,

We responded for the fire alarm and noted catastrophic failure of the sprinkler system. There was over a foot of water in the sprinkler/alarm room. The system had over 5 cracked pipes throughout. We shut down both OS&Y valves. This stopped the flow into the building but not the sprinkler room. The piping below the OS&Y was damaged as well. We informed the village water department of problem.

Thank you,

Chief:

Per Speedway they were not advised of a diesel spill yesterday. Walked the property and did not see any areas where a spill may have occurred.

On February 4, 2021 diesel pump # 3 & 4 malfunctioned. This caused a minor spill which is still in the process of being repaired. There is a bit of residue on the concrete. It is being cleaned up now. The pump is still out of service.

On the truck side pump # 25 has areas where something may have spilled. They are cleaning that area up as well.

I will call IEPA to get additional details.

Hello Ron,

Crew called to location for the fire alarm. Crew noted nothing showing at location. Crew was able to gain entry to FACP room. Crew noted alarm activation in zone 12. Zone 12 is a ducked detector in the office area. Crew was unable to enter the office area or the warehouse due to Knox keys not working. Crew noted no entry door into building through FACP room. Crew noted no problem at location. Alarm was reset. Alarm reset into trouble. Alarm trouble shunted for 72 hours. Crew returned to quarters. Can you please investigate alarm?

Ron,

We responded to an EMS call at 490 Supreme at approximately 1am this morning. The company is still allowing employees to park along the entrance. There were more cars when we arrived, and they moved before I could get a picture.

Lt. Waychoff:

Funny but not funny,

I was there yesterday morning for an inspection and advised security of the cars being parked in the entrance. I told them they there were plenty of other places to park.

They agreed, And will have the cars moved.

I will discuss with management on Monday.

I have had a few conversations with the police department about this issue.

We will figure it out!

Thanks

Ron

**Subject:** 648 S. York

Ron,

Last night we received a call from a resident at 648 S. York Rd who stated that their alarm was going off. Upon arrival the fire alarm was in full fire. I contacted dispatch and requested a status check on the alarm. Midwest Central did not have an alarm on their board. The alarm was due to water in a detector on the third floor. The detector was removed, and the alarm reset into trouble. Midwest was contacted and they then had the alarm in trouble, as it was reading on the panel. The position number is 0123. The activated zone was zone 8. Can you follow up on this and possibly relay the reason we did not get the alarm? Thanks again and let me know if you have any questions.

Ron,

We responded to 170-200 Thorndale at about 0130 this morning. The keys in the knox box only get us into the pump room, not the rest of the building. We had no access to the warehouse area or the office area. There is another box by the 170-office entrance, but the key in it does not open the door.

Ron,

We responded to 170-200 Thorndale at about 0130 this morning. The keys in the knox box only get us into the pump room, not the rest of the building. We had no access to the warehouse area or the office area. There is another box by the 170-office entrance, but the key in it does not open the door.

Ron,

I wanted to make you aware of this address. We responded for an AFA earlier and there were no working keys for the building. We were able to get them from a keyholder who responded and placed them in the box.

Secondly, it was noted that the extinguishers in the building common spaces were dated to 2015. Thought they could use a visit. Thanks.

Ron,

Today we responded to 500 W. Jefferson (White Pines Golf Club). We were met by Louis who notified us of a leak in the system. The leak was coming from the riser above the womens shower. We shut the system down along with the pump and drained it. Louis called the alarm out of service and contacted the sprinkler company. If you have any questions or concerns please contact me. Thank you,

Hello Ron,

We responded to an EMS call at location. We noted the building had been converted over to a key fob system. The key in the Knox box did not work and there was no key fob in Knox box. This is a multifamily building, and we go a fair amount.

Thank you,

Lieutenant Nevin Hahn

Chief:

So  
This is an old underground heating oil tank that was removed last week from Geils Funeral Home.

This was witness by the a member of the state fire marshals office.  
The was all cleaned and returned to original condition.  
I have the report if you would like a copy

**Subject:** 805 Golf

Hello,

We responded to 805 Golf yesterday for the fire alarm. I was notified by a fellow crew member that the previous week we were there multiple times for the RTU setting off the fire alarm. Once at the panel I seen it was RTU3 that was setting off the alarm. The crew member that was there previously notified me that it was the same RTU as they had on previous calls. I notified the managers in 805 Golf about the situation and that it needed to be repaired. They stated they have already been in contact with their land lord and that they were looking to have someone come out and fix it soon. If you need any more information please let me know.

I talked to Chief Walker about the trouble alarm response on this list.

He will have his guys email me when there are more than 2 in the 24 hour time frame or when they feel its need to be addressed.

**Subject:** Trouble alarms

Chief I've been getting emails from the guys on a few over active trouble alarms.

- 1- 145 E Grand - St Charges Borrromeo Church- Spoke with Shela- They are working with Chicago Metro to problem resolved.
- 2- 411 County Line- VictorWay. They are not answering the phone. I'm not able to physically go out there at the present time. Once able I will follow up..
- 3- 1004 W Irving- Dunkin Donuts- Made contact with the manager, Apparently they need new batteries. Waiting to hear back when repairs can be made.

**Subject:** RE: 24 S addison

Have made contact with Raleigh owner of 24 S Addison. He is in today and will have the panel looked at.

Made contact again with 1004 W Irving Dunkin Donuts. They are having difficulty finding an authorized company to work on their panel. I gave them a few suggestions. Hopefully they can locate a company to make the necessary repairs.

104 W Foster. The building is currently vacant and under contract to be sold. I've left a voice message with the current owner. Hopefully she can tell me if the building has been sold, who the new owner is.

**Subject:** 24 S addison

Ron,

Can you please check on 24 S Addison. We responded twice today to that location.

First one was for a broken sprinkler head around midday, the second was a short time ago (0200 hrs) for the pump run.

The second was found to be a false. However while responding there is no legend for the alarm panel to show how to reset alarm. There are just buttons labeled 1, 2, 3, 4. We got lucky and pressed the buttons and it worked to reset, but for a 8 story apt building we should have a easy to operate panel. Ie, acknowledge, silence, reset like most panels.

Thanks

Lt Martin

Hi Scott,

I'm contacting you to see if you have any information on the planned development at 83 and Devon. I'm hoping we can get in there and do some training once the houses are vacated. Do you know when the houses are expected to be empty? Also, do you have contact information for the developer so I can reach out about fire department training? Any information will be much appreciated. Thanks!

Good afternoon –

My recollection is that the developers are scheduled to close on the purchases after the first of the year. Sometime in January I believe.

There are two developers involved; ML Realty and Prologis (ML owns virtually all the homes. Prologis acquired three or four homes).

I can certainly make any introductions to Tim et al for you.

Just let me know, glad to help.

A good Friday morning to you Chief –

Our Finance Department here at Village Hall has been receiving payments for the false alarm invoices. And I have been given several of the receipts.

The Village Manager tells me, as well as, the Finance Department that these receipts should now be sent to you. I'll see that the ones I have are dropped off at the Firehouse for you.

Hello Ron,

This location has been having problems in the past months. Zone 30, pump run showing on alarm panel. I've been shutting the pump off and resetting the alarm. After the reset I've been able to turn the pump back on. Also, the alarm has problems with zones 13, 14, and 15. These are smoke/heat detectors in main warehouse.

Thank you,

Lt. Hahn

**Subject:** 130 E George St.

Ron,

We responded for the AFA at 130 E. George St. The activation was due to a burnt up elevator motor on the first floor. We only had an activation because the smoke traveled through the trash chute and activated a smoke detector on the top floor. The detector in the mechanical room was a heat only. If this was something worse it would have been a delayed response. The unit was locked and tagged out by maintenance. Additionally, there were no elevator keys in the elevator box that worked. Can you look into this and possibly the other address in the complex? Thanks and if you have any questions let me know. The maintenance contact is Luis Rivera 773-664-9807.

**Subject:** 971 Supreme Fire Pump

**Importance:** High

Chief, I was just advised that the underground loop that feeds the risers from the fire pump is leaking water underground.

They will be abandoning the undergrounding piping and install new overhead pipes

Until this is complete the Fire Pump will be OUT OF SERVICE.

The sprinkler system and fire Alarm are up and running.

The building is only occupied by one or two people with little to no stock.

Please let the guys know.

I'll let you know when it is back in service.

**NOTE:**

They are having a similar issue at 1010 Foster, with the underground riser pipes leaking water.

They will not start that work at 1010 Foster until 971 Supreme is complete.

All systems are operational at 1010 Foster.

**Subject:** 1025 Industrial and 490 Supreme

Ron,

We responded to 1025 Industrial, Cardinal fence twice this morning for a malfunctioning SE dock heat detector activation. The zone was disabled. Also, the housekeeping in that building is non-existent. The access to the alarm panel was obstructed by building materials and there is barely a path to get around the building.

We also responded to an EMS call at 490 Supreme earlier last night. The company is allowing their employees to park anywhere on the property. Multiple vehicles were parked along the entrance, not in parking spots and

up in front of the building. This provided access issues for our vehicles and will provide even bigger issues if there is a more serious incident there.

Ron,

This is a follow up to your follow up. The parking at 490 Supreme is unacceptable. I have just returned from an EMS run up there. Here are a series of four photos to show the parking. According to your email you have already spoke to management. Please use these photos and speak to them again.

As you can clearly see, the entry way is blocked with parking on both sides making entry with apparatus difficult. (Photo 1) The FDC has multiple layers of cars parked in front of it, delaying access. (Photo 2 and 3) The main exit for staff (door N3) has a car in front of it, possibly hampering egress. (Photo 4) If you need anything else please let me know, and I look forward to the reply from the management.

**Subject:** 1025 Industrial and 490 Supreme

Ron,

We responded to 1025 Industrial, Cardinal fence twice this morning for a malfunctioning SE dock heat detector activation. The zone was disabled. Also, the housekeeping in that building is non-existent. The access to the alarm panel was obstructed by building materials and there is barely a path to get around the building.

We also responded to an EMS call at 490 Supreme earlier last night. The company is allowing their employees to park anywhere on the property. Multiple vehicles were parked along the entrance, not in parking spots and up in front of the building. This provided access issues for our vehicles and will provide even bigger issues if there is a more serious incident there.

Good Morning everyone.

I went back to UPS this morning and found that the cars have not been moved.

I went ahead and Issued a Written correction notice to the operations manager of the facility.

He has three the days (the weekend to get this resolved)

Mr. Chavez (operations manager) totally understands the situation.

I will re-visit Monday morning.

If you have any questions please give me a call.

**Subject:** Re: 1025 Industrial and 490 Supreme

Ron,

This is a follow up to your follow up. The parking at 490 Supreme is unacceptable. I have just returned from an EMS run up there. Here are a series of four photos to show the parking. According to your email you have already spoke to management. Please use these photos and speak to them again.

As you can clearly see, the entry way is blocked with parking on both sides making entry with apparatus difficult. (Photo 1) The FDC has multiple layers of cars parked in front of it, delaying access. (Photo 2 and 3) The main exit for staff (door N3) has a car in front of it, possibly hampering egress. (Photo 4)

If you need anything else please let me know, and I look forward to the reply from the management.

Follow up-

Visited Cardinal Fence 1025 Industrial dr. this morning.  
The two heat detectors in questions are activating due to water leaks in the ceiling above the detectors.  
He has already called his alarm company and roofing contractor.

450 Supreme (UPS)  
Spoke with manager this morning. He will make sure vehicles are only parked in approved parking stalls.

321. W Irving Follow-up

They are still have issues with the roof leaking water. At this time the fire alarm is no longer in trouble  
Roofers are on site to make necessary repairs.

I have placed a temporary key in the key box.

NOTE THIS KEY WILL ONLY OPEN THE FRONT DOOR.

The building will not be occupied by O'Reilley auto until March.

At that time the proper keys will be placed in the lock box.

Any questions please give me a call.

Heard from the contractor.

They have a water leak in the roof

It's leaking water in the bathroom just above the smoke detector.

Roof will not be repaired till Monday

Alarm company will put system in test to Monday.

Ron,

Earlier this morning around 3am crews responded for the activated fire alarm at this location. It was noted that the knox box was left open and no keys were inside. The FACP door has a guard latch that prevents us from gaining access without doing damage to the door, and ACDC was unable to get a hold of the keyholder. Looking through the windows in the front we noticed no problem and the building hasn't been stocked yet. Battalion 107 took the alarm out of service for 12 hours, expiring today around 3pm. Let me know if you have any additional questions.

Thanks,

Good early afternoon to you Chief –

I have attached a copy of a False Alarm receipt we got here at Village Hall.

It is somewhat old, as we had received a flurry of these so when this one came I assumed we'd get more and we'd send them over s a group.

But I have not seen any more.

**Subject:** RE: 621 N rt 83

Good Afternoon,

I walked the building this afternoon with the occupant.

Showed her the faulty Beam Detector and a few other items with the fire alarm.

She will be calling, building maintenance for repairs to the fire alarm system ASAP

During our walk thru we discussed the housekeeping issues. Housekeeping items will be taken care of ASAP.

There are two key boxes for the building. One by the front door and the other by the sprinkler room in the back.

The keys in the front box worked for the front doors and the sprinkler room.

I placed a sprinkler room door key in the key box by the sprinkler room.

The main FACP and the annunciator panel my the front appeared to be in good working condition.

The panel in the dock only displayed and trouble signal for zone B.

Fire alarm system will be inspected when they come out for the beam detectors.

I will follow up next week on the fire alarm and the house keeping issues.

Ron,

Can you please take a look at the above address. We responded for the AFA at this location this morning. We encountered problems with the keys not working for the alarm room. We forced entry without damage. There are three alarm panels in the building. Only one is correct. We also found poor housekeeping, with debris in front of many exit doors, the FACP room.

**Subject:** RE: Todays issues

712 Foster- Placed key in the key box located by the rear door.

NOTE: This complex only has a few key boxes for a few businesses. Village Code allows for a key box once a fire alarm is installed.

We only have a half a dozen or so business with fire alarms. I'm working to get key boxes for those first. Will look into what to do with the rest of the complex.

855 Golf I believe there is an older 4-zone panel in that building. For now the building is vacant will need to see about getting it updated once a new tenant moves in.

608 Country Club- Waiting for Federal Envelope to get new keys made for the box. Should have them later today or tomorrow.

Ron,

Got a couple for you fellas to follow up on.

710 Foster- the whole building does not have keys. We spun the lock on 710 for a fire alarm. It was left in full fire due to a power outage.

855 Golf- No fire panel in this building. Remotely monitored only.

608 Country club- no entry keys, also we were let in by a keyholder and they have all the doors lock behind you, including egress routs. Is this ok?

Thanks

**Subject:** 971-991 Supreme

Ron,

Last night at 11:54pm we responded to the fire alarm at 971-991 Supreme. There was a broken sprinkler head in the loading dock area on the northwest side of the building. The affected sprinkler head was supplied through a remote riser, and the main drain for that riser was frozen solid from the inside and unable to be used. To mitigate the problem, we shut off the municipal water supply to the building and drained the whole system via the main drain outside of the FACP room. Ryan from Prologis was contacted and stated he was going to have the system serviced today. He was also instructed to call the alarm out of service, as it would not reset. We waited on scene until there was a noticeable pressure drop in the system to confirm it was isolated. Let me know if you need anything further from me.

Thanks,

FF/PM John Liberto

Ron,

I'm sorry, I was in a meeting. Yes, we had a key holder and scene and PW was notified via ACDC. Also, thanks for the update.

**Subject:** RE: 301-317 W. Main st.

Looks like the main heat failed at 301 W Main. The pipe just above the main valve for the domestic water froze and burst. The sprinkler double detector valve also broke at the cleanout. Numerous fitting also froze and broke thru out the grid system. Sprinkler company has been notified and on their way to investigate and begin to make repairs. Fire Alarm Company has been called to inspect the system HVAC Contractor has been called to get the system back up and running.

Will keep you all up to date.

Hello Ron,

We responded for the fire alarm and noted catastrophic failure of the sprinkler system. There was over a foot of water in the sprinkler/alarm room. The system had over 5 cracked pipes throughout. We shut down both OS&Y valves. This stopped the flow into the building but not the sprinkler room. The piping below the OS&Y was damaged as well. We informed the village water department of problem.

Thank you,

Lieutenant Nevin Hahn

FOLLOW UP!

Plumber has been contacted to repair the backflow and the domestic water Issues.  
CL Doucette Inc. has been contracted to make repairs to the sprinkler system. (no time frame has been given)  
Fire Alarm will be inspected ASAP to insure the building is monitored.

Sean,

I will have one of the two firefighters reach out to you and setup a time to stop by and check the system. They are both working either tomorrow or Thursday. They are both also cc'd with this email. Feel free to reach out to me on my cell 630-338-5539 in the meantime if you need to.

Thanks,  
Scott

Good evening Chief,

My name is Sean Flynn and I am the Director of Recreation for the Village of Bensenville. We recently had a film production at our facility where they hired a firefighter to come and observe production due to shutting down the fire alarm. We have since had a few issues with our fire alarm going off. I would like to see if we could get the firefighters assigned here to double check it was hooked back up properly before we call in the company that services the panel.

Feel free to give me a call at 630-594-1018 to discuss at your convenience.

Thanks,

Sean

Good afternoon –

My recollection is that the developers are scheduled to close on the purchases after the first of the year. Sometime in January I believe.

There are two developers involved; ML Realty and Prologis (ML owns virtually all the homes. Prologis acquired three or four homes).

I can certainly make any introductions to Tim et al for you.

Just let me know, glad to help.

Hi Scott,

I'm contacting you to see if you have any information on the planned development at 83 and Devon. I'm hoping we can get in there and do some training once the houses are vacated. Do you know when the houses are expected to be empty? Also, do you have contact information for the developer so I can reach out about fire department training? Any information will be much appreciated. Thanks!

A good Friday morning to you Chief –

Our Finance Department here at Village Hall has been receiving payments for the false alarm invoices. And I have been given several of the receipts.

The Village Manager tells me, as well as, the Finance Department that these receipts should now be sent to you.

I'll see that the ones I have are dropped off at the Firehouse for you.

## **FEMA ADVISORY – OCT. 5, 2020**

**Coronavirus Pandemic:**

# **Additional \$31 million available to Firefighters**

Fire service organizations nationwide with membership on the front lines in the fight against the coronavirus (COVID-19) public health emergency will soon be able to apply for a share of \$31 million to purchase personal

protective equipment and supplies. The funding is part of the Coronavirus Aid Relief and Economic Security (CARES) Act through FEMA's Assistance to Firefighters Grant Program (AFGP).

FEMA will begin accepting application for the second round of the **Fiscal Year 2020 Assistance to Firefighters Grant – COVID-19 Supplemental Program (AFG-S)** on Tuesday, Oct. 6. The deadline for receipt of AFG-S applications is Friday Nov. 13, 2020, by 5 p.m. ET. The second round of the FY20 AFG-S grant is strictly limited to only fire departments classified as volunteer or combination organizations. Those who would like to start planning their application before the application period opens can access the Notice of Funding Opportunity (NOFO) and technical assistance tools on the [FEMA Website](#). The AFG-S application is available through the [FEMA Grants Outcomes \(FEMA GO\) application portal](#).

## Contact Us

If you have any questions about the AFG-S grant or the AFG Program, you can contact the AFG Program Help Desk. The AFG Program Help Desk is available from 8 a.m. to 4:30 p.m. ET, Monday – Friday.

- AFG Program Help Desk at (866) 274-0960 or at [firegrants@fema.dhs.gov](mailto:firegrants@fema.dhs.gov)

If you have any questions regarding this FEMA advisory, please contact FEMA Office of External Affairs, Congressional and Intergovernmental Affairs Division:

Intergovernmental Affairs at (202) 646-3444 or at [FEMA-IGA@fema.dhs.gov](mailto:FEMA-IGA@fema.dhs.gov)

# Assistance to Firefighters Grant – COVID-19 Supplemental Program

---

FEMA is providing an additional chance for **volunteer** and **combination** fire departments to apply for funding under the FY 2020 Assistance to Firefighters Grant – COVID-19-Supplemental Program (AFG-S) to support the purchase of personal protective equipment (PPE) and related supplies by the fire service community to help prevent, prepare for and respond to the coronavirus pandemic. FEMA anticipates opening the application period in October 2020.

## Purpose

The purpose of AFG-S is to award grants directly to fire departments to enhance their ability to protect the health and safety of the public, as well as that of first-responder personnel through the purchase of PPE and related essential supplies related to the COVID-19 pandemic. Grants will be awarded competitively to applicants whose requests best address the priorities of AFG-S.

## Funding

AFG-S is authorized by section 33 of the *Federal Fire Prevention and Control Act of 1974*, Pub. L. No. 93-498, as amended (15 U.S.C § 2229) and authorized and funded by the *Coronavirus Aid, Relief, and Economic Security (CARES) Act*, Div. B (Pub. L. No. 116-136).

The \$100 million in funding appropriated for AFG-S by the CARES Act is separate and distinct from the FY 2019 AFG Program Notice of Funding Opportunity published on Jan. 27, 2020. The initial application period for AFG-S funding, open to career, volunteer, and combination fire departments; nonaffiliated EMS organizations; and state fire training academies, closed on May 15, 2020. By law, 25 percent of available AFG-S funds must be awarded to volunteer fire departments and another 25 percent must be awarded to combination fire departments. This second application period will be limited to those categories of fire departments to fulfill this requirement. All activities under this solicitation will be limited to the purchase of PPE and related supplies required to prevent, prepare for, and respond to COVID-19. This includes reimbursement for expenditures made since Jan. 1, 2020.

**FEMA**

## Eligibility

**Volunteer and Combination Fire Departments** operating in any of the 50 states as well as fire departments in the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of Puerto Rico, or any federally recognized Indian tribe or tribal organization. A fire department is an agency or organization having a formally recognized arrangement with a state, local, tribal or territorial authority (e.g. city, county, parish, fire district, township, town, or other governing body) to provide fire suppression to a population within a geographically fixed primary first due response area.

A volunteer fire department means a fire department that has an all-volunteer force of firefighting personnel.

A combination fire department means a fire department that has paid firefighting personnel and volunteer firefighting personnel. Departments which pay fees/stipends (Paid on call) are also considered under this category

Volunteer and combination fire departments are eligible to apply in this round even if they had a successful application in the first round. However, new applications must support new capabilities. Departments that applied in the first round but were unsuccessful must reapply to be considered for funding in this round; applications from the first round will not automatically carry forward to this round for consideration.

## Program Highlights

AFG-S eligible organizations may submit applications under the following categories:

Operations and Safety:

- Personal Protective Equipment

Regional Projects:

- Regional projects in which multiple, eligible organizations (serving more than one local jurisdiction) would benefit directly from the activities requested with grant funds.

Micro Grants:

- \$150,000 will be set aside for micro grants. The maximum dollar amount per micro grant is \$3,000.

## Evaluation Criteria

The funding priorities and evaluation criteria are developed from recommendations provided by a criteria development panel composed of fire service professionals representing the major fire service organizations. AFG-S applications will be reviewed through a multi-phase process. All applications will be electronically pre-scored and ranked based on how well they align with the funding priorities. Applications with the highest pre-score rankings will then be scored competitively by members of a Peer Review Panel. Applications will also be evaluated through a series of internal FEMA review processes for completeness, adherence to programmatic guidelines, technical feasibility, and the anticipated effectiveness of the proposed project(s).

## ASSISTANCE TO FIREFIGHTERS GRANT - COVID-19 SUPPLEMENTAL PROGRAM (AFG-S)

Applicants requesting reimbursement or requesting immediate use of PPE will receive a higher consideration than applicants requesting funds to develop future response capabilities. Applicant requests should include information about current supply, response usage, and anticipated peak-use dates.

All submitted applications will be ranked based on the substance of the application, relative to the established funding priorities.

Applications that score the highest and are determined to be in the “competitive range” will undergo further evaluation by a panel of peers from the fire service.

### **Outreach**

In anticipation of opening the application period in October 2020, FEMA will conduct outreach to eligible applicants. This outreach will include a series of webinars. Information about this funding opportunity also will be posted on [www.fema.gov/grants/preparedness/firefighters](http://www.fema.gov/grants/preparedness/firefighters).

FEMA ADVISORY – OCT. 5, 2020

# Coronavirus Pandemic:

## Additional \$31 million available to Firefighters

---

Fire service organizations nationwide with membership on the front lines in the fight against the coronavirus (COVID-19) public health emergency will soon be able to apply for a share of \$31 million to purchase personal protective equipment and supplies. The funding is part of the Coronavirus Aid Relief and Economic Security (CARES) Act through FEMA's Assistance to Firefighters Grant Program (AFGP).

FEMA will begin accepting application for the second round of the **Fiscal Year 2020 Assistance to Firefighters Grant – COVID-19 Supplemental Program (AFG-S)** on Tuesday, Oct. 6. The deadline for receipt of AFG-S applications is Friday Nov. 13, 2020, by 5 p.m. ET. The second round of the FY20 AFG-S grant is strictly limited to only fire departments classified as volunteer or combination organizations. Those who would like to start planning their application before the application period opens can access the Notice of Funding Opportunity (NOFO) and technical assistance tools on the FEMA Website. The AFG-S application is available through the FEMA Grants Outcomes (FEMA GO) application portal.

### Contact Us

If you have any questions about the AFG-S grant or the AFG Program, you can contact the AFG Program Help Desk. The AFG Program Help Desk is available from 8 a.m. to 4:30 p.m. ET, Monday – Friday.

Not sure if you receive these but it appears there is some drama with your customer, BFPD #1. There is a follow up email I'll send you.

**From:** My White Pines  
**Sent:** Tuesday, October 13, 2020 12:06 PM  
**Subject:** News You Can Use!

Dear Neighbors,

We have been informed that there will be a joint meeting tomorrow, Wednesday the 14<sup>th</sup>, between Addison Township and Bensenville Fire Protection District #1. This open meeting will be held at 6:30 pm at 401 N. Addison Road, Addison, IL 60101. Please enter at Door 8.

As you already know, we have been investigating Bensenville Fire Protection District #1 (BFPD#1) for over a year now in regards to the poor management of this governmental entity. Through Freedom of Information Requests (FOIAs) we have found that this paper fire district is nothing more than a nice little extra income for its board members and Mr. Paul DeMichele who is a self-described "consultant" for the district. BFPD#1's bookkeeping and recordkeeping is atrocious. This district has no fire equipment, no firemen, no firehouses, no office and no emergency phone number. They do not respond to fires yet one of its board members charges the district for travel expenses regularly. They previously actually bought themselves badges even though they themselves are not firemen in any sense of the word. BFPD#1 pays an attorney representing them thousands upon thousands of dollars to do the work that they are actually getting paid to do.

We, the White Pines Community Alliance, have requested many documents from BFPD#1 that we are legally allowed to ask for through FOIAs. The district has stonewalled us time after time on these requests and we have had to resort to requesting that the Illinois Attorney General's PAC officer step in to help us get the requested documents. They claim on their website that their finances are audited yearly but we have found that they actually have not been audited in many, many years. It is Bensenville Fire Protection District #2 (BFPD#2) that actually services our area yet Bensenville Fire Protection District #1 is who actually gets our property tax money. BFPD#1 simply collects our taxes, skims some off the top to compensate its board members and "consultants" and then pays a few dollars to BFPD#2 to do the actual work. For the record, we did also FOIA the finances of BFPD#2 and received a very quick, complete and organized set of documents directly from the district itself. It doesn't appear that they had to pay an attorney thousands of dollars to do their own work as BFPD#1 does.

The Addison Township Board attempted to get a handle on this rogue fire district over a year ago but was also stonewalled by the members and it's "consultant" Paul DeMichele. At the last BFPD#1's public meeting Addison Township Supervisor Dennis Reboletti made it very clear that Addison Township would no longer stand for the stonewalling and demanded that BFPD#1's board meet with the Addison Township Board. This has resulted in tomorrow's meeting. If truly care how your taxes are being spent please attend this meeting and voice your opinion.

On to other business; as is clearly visible the new water mains project has begun. It appears that the new mains will be located on the existing fire hydrant side of the street and this is the side that the street will be cut on. Please note that

according to DuPage County Codes the county's right-of-way extends 33 feet from the centerline of the roadway in residential areas. While it looks like the water main project contractor is taking every precaution to avoid disturbing landscaping in front of houses they can use the entire right-of-way if warranted. If you have any sensitive or fragile decorations within the right-of-way it would be advisable to move them before the construction begins in front of your house.

It is clear that many people have been without a job during this pandemic as many businesses have closed their doors either temporarily or permanently. There is one entity that must be kept open and that is our local county government. As such, DuPage County is continually looking for people to fill positions in all kinds of fields. These open positions are regularly posted on their website at the following link: <https://www.dupageco.org/jobs/>. Check it out and find your dream job today.

Lastly, we would like to congratulate one our longtime residents Mr. Rich Zappen. Rich is an avid marathoner and would have completed his 100<sup>th</sup> official marathon if the Chicago Marathon had not been cancelled. It had been reported by abc7 news that Rich was still going to run the marathon by himself and with a few family and friends spread out on the course to cheer him on. We not going to lie, we're a little envious that Rich at 64 years old is making the rest of us look like couch potatoes. You go Rich!!

Stay safe.

2 of 2.

**From:** My White Pines  
**Sent:** Tuesday, October 13, 2020 2:37 PM  
**Subject:** Say it ain't so Paul!

Dear Residents,

We just watched this morning's regularly scheduled DuPage County Board meeting as we normally do to keep track of what is happening in our area. At this meeting Mr. Paul DeMichele gave a public comment in which it became obviously transparent that he is displeased that we, the **White Pines Community Alliance**, send our emails to County Board members. Apparently Mr. DeMichele doesn't like having the spotlight placed on him for his questionable "consulting" for Bensenville Fire Protection District #1. He states that he believes it is a "cyber crime" in the fact that the County Board receives our emails but he doesn't. Well Mr. DeMichele let us tell you, the County Board receives exactly the same emails that we send to our 250+ resident subscribers. The probable reason that you never received our emails is that we never had an email address for you. It wasn't until just recently that we saw that you had an email when you placed your name on the potential bidder's list for the new water mains in White Pines. You know, that water main project that you constantly campaign against even though you are not a resident of White Pines.

DeMichele also believes there is a conspiracy by the **White Pines Community Alliance** to increase fire protection costs. This comment to the County Board by DeMichele strangely enough comes the day before the public meeting that is scheduled between the Addison Township Board and DeMichele's piggy bank, Bensenville Fire Protection District #1, where it will be discussed bringing the district in house at Addison Township and under its watchful eye. You see, Mr. DeMichele doesn't want his activities with BFPD#1 to be watched. He still wants to do as he pleases with the paper fire district he gets paid to "consult" for. Folks, we will be at tomorrow's meeting and will relay the blow-by-blow to you after it is over. We sincerely hope that not only concerned homeowners in our area attend the meeting but also those members of BFPD#2 and County Board members who represent the areas BFPD#1 covers.

Mr. DeMichele, the only crime we see here is the existence of a paper fire protection district and a "consultant" to that district who never describes on his monthly invoices to them what exactly he is consulting on.

--

**RESOLUTION NO. R-88-2020**

**A RESOLUTION OF THE VILLAGE OF BENSENVILLE, DUPAGE  
AND COOK COUNTIES, ILLINOIS IN SUPPORT OF BENSENVILLE  
FIREFIGHTERS AND THE BENSENVILLE  
FIRE PROTECTION DISTRICT NUMBER 2**

**WHEREAS**, the Village of Bensenville, DuPage and Cook Counties, Illinois (the "*Village*") is a duly organized and existing municipal corporation created under the provisions of the laws of the State of Illinois and under the Illinois Municipal Code, as from time to time supplemented and amended; and

**WHEREAS**, the Bensenville Fire Protection District # 2 is located at 500 South York Road, Bensenville, Illinois 60106; and

**WHEREAS**, the Bensenville Fire Protection District #2 provides vital fire and paramedic services to the residents of the Village; and

**WHEREAS**, the Bensenville Fire Protection District #2 employs trained professional firefighters.

**NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF BENSENVILLE, DUPAGE AND COOK COUNTIES, ILLINOIS, AS FOLLOWS:**

**SECTION ONE:** That the above recitals and legislative findings are found to be true and correct and are hereby incorporated herein and made a part hereof, as if fully set forth in their entirety.

**SECTION TWO:** The Village President and Board of Trustees of the Village of Bensenville support the mission and efforts of the Bensenville Fire Protection District #2 to provide our community with vital lifesaving services in a financially sound manner.

**SECTION THREE:** The Village President and Board of Trustees of the Village of Bensenville stand with and support the firefighters of Bensenville Fire Protection District #2.

**SECTION FOUR:** The Village Clerk is hereby directed to forward a certified copy of this Resolution to the Bensenville Fire Protection District #2.

**SECTION FIVE:** If any section, paragraph, clause or provision of this Resolution shall be held invalid, the invalidity thereof shall not affect any other provision of this Resolution.

**SECTION SIX:** All ordinances, resolutions, motions or orders in conflict with this Resolution are hereby repealed to the extent of such conflict.

**SECTION SEVEN:** This Resolution shall be in full force and effect upon its passage, approval, and publication as provided by law.

*(Intentionally Left Blank)*

**PASSED AND APPROVED** by the President and Board of Trustees of the Village of Bensenville, Illinois, this 13th day of October 2020.

APPROVED:

Frank DeSimone, Village President

**To:** Scott Walker  
**Subject:** RE: Busy, Busy, Busy!

Thanks for the update. That's good to hear. I honestly believe most White Pines residents are good people and just want to live their lives. 10% of the neighborhood is a very vocal minority, however.

**From:** Scott Walker  
**Sent:** Thursday, October 15, 2020 11:06 AM  
**To:** Evan Summers  
**Subject:** Fw: Busy, Busy, Busy!

The meeting last night was totally uneventful and if fact was very favorable for BFPD #2 because I had the opportunity to meet many residents of District 1 who took the time after the meeting to thank District #2 for our service and to also highlight some calls where we made a difference in their lives over the years.

---

**From:** My White Pines <[mywhitepines@gmail.com](mailto:mywhitepines@gmail.com)>  
**Sent:** Thursday, October 15, 2020 10:53 AM  
**Subject:** Busy, Busy, Busy!

Dear Neighbors,

Boy, yesterday was a busy one for White Pines. So much going on in our little Burg.

**Emergency Call:**

For all those asking about the massive emergency response yesterday in our community you will be pleased to know that all is well. At around 10:45 last nite an emergency call came out that there was a small explosion and fire behind a house located just a few doors down from the corner of Red Oak and Pine Grove. At lease four Fire Departments and multiple police departments responded with dozens of trucks and vehicles converging on our subdivision. As it turns out, we have been informed that a propane gas tank in a shed exploded and cause the shed, fence and some trees to catch on fire. The fire was quickly extinguished and the fire department checked for any addition gas leaks. We would like to thank all those first responders that came rushing in to make sure our community was safe.

**Addison Township / Bensenville Fire Protection District #1 meeting:**

The White Pines Community Alliance did send representatives to this meeting last nite in which Dennis Reboletti, the Addison Township Supervisor, gave an extraordinarily generous proposal to the Bensenville Fire Protection District #1 (BFPD#1) board. Mr. Reboletti told BFPD#1's board that the Township will provide them with an office, bookkeeping services, document retention, FOIA responses, auditing, State required financial disclosure statements, a page on their website, a dedicated phone number and a true physical address ALL FOR FREE! The Township will do this with an intragovernmental agreement in writing. Now for BFPD#1 to refuse this offer would be ludicrous and only prove our contention that certain members of their board and it's paid "consultant" wants to keep a grip on the finances of this paper fire district for their own personal benefit. Paul DeMichele made a public comment at this week's DuPage County Board meeting in which he stated that we, the **White Pines Community Alliance**, had an agenda to increase the cost of fire protection. After last nites Addison meeting, in which he attended, we would like to ask Mr. DeMichele how exactly

all these free services offered by Addison Township will increase fire protection costs. If anything, an intragovernmental agreement with Addison Township will substantially reduce fire protection costs by eliminating certain fees from BFPD#1's books like high attorney fees, internet website costs and a certain "consultant's" monthly fee. We emphatically applaud Addison Township Supervisor, Dennis Reboletti, for taking the steps necessary to assure that our tax dollars are spent wisely.

As BFPD#1 has about a month to contemplate Addison Township's offer they have reported that their next public meeting will be held Nov 16<sup>th</sup> and the White Pines Community Alliance have been asked to be there to offer what we would like to see happen within and with this district. We will without hesitation of course be there and anticipate a lively discussion on the topic of BFPD#1 accepting Addison's offer. We would also like to thank BFPD#2's new Fire Chief, Scott Walker, for attending this meeting as we are sure any decision BFPD#1 makes will affect his fire companies.

#### **Water Main locations:**

In a previous email we stated that it appears that the new mains will be located on the old fire hydrant side of our streets. While for the most part this is true, after a conversation with Bensenville's Director of Public Works, Joe Caracci, it appears that there will be some deviation from this. We have been told that on our North/South streets the new mains will be placed on the West side on the street except of course those on Route 83, but on the East/West streets the mains could be on either side such as on Forest View in which the new lines will be installed on the North side of the street. In any case it is advisable to make sure you remove any decorations or objects within the previously stated right-of-way of 33 feet from the roadway center line.

#### **Our Community's Marathon Celebrity:**

Rich Zappen, after 100 marathons isn't sitting back in his easy chair. Rich has informed us that he intends to run the New York marathon virtually next Saturday in our subdivision! 101 and counting!! The New York Virtual Marathon is 26.2 miles so we will see Rich many times as he traverses our tiny subdivision. He intends to get an early start so please give Rich encouragement and a big applause as he runs by. Maybe we'll see our other Marathoner, Tammy Gentile, out there trying to outpace Rich??

Please stay safe.

# COVID-19 Outreach Coordinator: Intervention in Latino Communities

## Request for Proposals (RFP):

### COVID-19 Outreach Coordinator: Intervention in Latino Communities

**Proposal Due Date:** Thursday, November 5, 2020 (4:00pm)

**Submit Proposals To:** Evan K. Summers, Village Manager, Village of Bensenville

**Email:** [manager@bensenville.il.us](mailto:manager@bensenville.il.us)

[Full Proposal Specifications and Scope of Services Available in Related Documents Section Below](#)

## Project Description

In an effort to impose a quick intervention against the spread of COVID-19, the Village of Bensenville is soliciting proposal to contract with an outside person or agency to serve as an outreach coordinator whose primary focus will be to work directly with the Bensenville, IL Latino community to educate them about the risks of COVID-19 as well as provide strategies and supplies that are proven to reduce community spread.

## Background and Community Needs

The Village of Bensenville disproportionately has one of the highest rates of COVID-19 positive cases compared to other municipalities in DuPage County. Data collected by the DuPage County Health Department has found that Hispanics or Latinos are 3.8 times more likely to be diagnosed with COVID-19 than non-Hispanic or Latino residents. Correspondingly, Bensenville has one of the largest Latino/Hispanic populations in DuPage County, comprising 49.7% of the Village's overall population. In order to protect residents by reducing the spread of COVID-19, the Village is soliciting proposals from qualified entities to serve as an Outreach Coordinator for COVID-19 Intervention in Bensenville's Latino Community.

## RFP Timeline

October 21, 2020:	Request for Proposals Released
November 5, 2020:	Proposals Due at 4:00 PM
November 5-12, 2020:	Proposals Review, Preliminary Candidate Selection
November 12, 2020:	Applicants Notified
November 17, 2020:	Contract Award
November 23, 2020:	Contract Start Date

**Subject:** Request for Proposals (RFP): COVID-19 Outreach Coordinator: Intervention in Latino Communities...

BIG Administrators,

The Village is currently soliciting proposals for a COVID-19 Outreach Coordinator (Latino) funded through a CARES Act allocation from the County. The goal would be to help make a meaningful intervention on COVID-19 within our Latino/Hispanic community. Please share with any person/organization you or your staff may feel qualified.

Proposal due November 5.

Respectfully,

eks

Request for Proposals (RFP): COVID-19 Outreach Coordinator: Intervention in Latino Communities...

## **COVID-19 Outreach Coordinator: Intervention in Latino Communities**

**Request for Proposals (RFP):  
COVID-19 Outreach Coordinator: Intervention in Latino Communities**

**Proposal Due Date:** Thursday, November 5, 2020 (4:00pm)

**Submit Proposals To:** Evan K. Summers, Village Manager, Village of Bensenville

**Email:** [manager@bensenville.il.us](mailto:manager@bensenville.il.us)

[Full Proposal Specifications and Scope of Services Available in Related Documents Section Below](#)

### **Project Description**

In an effort to impose a quick intervention against the spread of COVID-19, the Village of Bensenville is soliciting proposal to contract with an outside person or agency to serve as an outreach coordinator whose primary focus will be to work directly with the Bensenville, IL Latino community to educate them about the risks of COVID-19 as well as provide strategies and supplies that are proven to reduce community spread.

### **Background and Community Needs**

The Village of Bensenville disproportionately has one of the highest rates of COVID-19 positive cases compared to other municipalities in DuPage County. Data collected by the DuPage County Health Department has found that Hispanics or Latinos are 3.8 times more likely to be diagnosed with COVID-19 than non-Hispanic or Latino residents. Correspondingly, Bensenville has one of the largest Latino/Hispanic populations in DuPage County, comprising 49.7% of the Village's overall population. In order to protect residents by reducing the spread of COVID-19, the Village is soliciting proposals from qualified entities to serve as an Outreach Coordinator for COVID-19

Intervention in Bensenville's Latino Community.

**RFP Timeline**

- October 21, 2020: Request for Proposals Released
- November 5, 2020: Proposals Due at 4:00 PM
- November 5-12, 2020: Proposals Review, Preliminary Candidate Selection
- November 12, 2020: Applicants Notified
- November 17, 2020: Contract Award
- November 23, 2020: Contract Start Date

Frank & Evan,

Looks like we'll win our referendum by over 14%. I want to thank you both for your support. I know we all bumped heads a bit during this process, but I hope now that this is over we can all move forward for the betterment of Bensenville.

Thanks,  
Scott

**Attachments:** 2016.11.04 Bensenville Tax Consortium IGA - clean.docx

Chief,

We've discussed briefly a long time ago but I wanted to give you an update on the Bensenville Tax Consortium. As I mentioned previously, we weren't too happy with our primary attorney Hinshaw. Recently the consortium dropped them as our primary and has moved our secondary, Klein Thorpe and Jenkins, to the primary spot. In doing so, we are going to re-open our IGA to make some edits. Now would be a seamless time for the Fire District to join us. With your addition, all Bensenville taxing bodies would be represented.

Let me know,

eks

**Evan K. Summers**

**Subject:** RE: Bensenville Consortium PTAB recommendations

Mallory,

Thanks for the email. A few things:

1. I'll recommend that we take your advice and intervene on the four PTAB cases you reviewed.
2. Shortly, I'll circulate a new resolution for all members to adopt recognizing KTJ as the consortium's attorney of record.
3. Attached is the Word.doc for the consortium's IGA. In addition to adding KTJ to Section 2, we should revisit section 4 and adjust the proportionate percentages. Any other changes needed?
  - o I'm also going to approach the Fire District and see if they would have interest in joining our merry band of interveners.
4. As for billing, and to minimize KTJ's administrative hours, the Village will continue to pay all KTJ bills and then invoice the other members for their proportionate share.

That should cover it for now. Other members, please weigh in on #1 and give (or don't give) Mallory authorization to proceed.

Respectfully,

eks

**Cc:** Jada Franklin <jfranklin@KTJLAW.com>

**Subject:** Bensenville Consortium PTAB recommendations

All:

First, I want to thank you all for choosing KTJ as your property tax counsel. Second, per Evan's email on Friday informing me of the Consortium's decision to retain KTJ as its property tax counsel, I have reviewed the PTAB notices that he forwarded me and enclosed are our intervention recommendations.

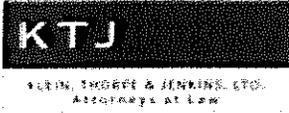

How I usually approach PTAB interventions is that I have a threshold for intervention (which allows us to, at minimum, be part of any settlement conversation and participate in any hearing) and then once I receive a copy of the evidence the appellant filed, I evaluate whether or not it is beneficial for the Consortium to obtain an appraisal, comparable sales, or just adopt the evidence of the other parties/Board of Review. If there is any cost associated with this analysis, I get approval from the Consortium. Essentially, I would not retain an appraiser without approval from the Consortium. If there is a different way you would like to proceed, please let me know.

In addition to your approval to intervene in the specific PTAB appeals attached, I will need updated resolutions adopted by each taxing body, stating that Klein, Thorpe & Jenkins, Ltd. is now that authorized representative. For your convenience, I have attached a copy of the old resolution, which can be updated by replacing Hinshaw with Klein, Thorpe & Jenkins, Ltd. in Paragraph #2. You also will likely want to update your IGA to reflect the new law firm, but for intervening in PTABs, I just need the new resolutions.

I also need to know how you want the billing set up and split – do you want each property to have its own matter number or do you want them all together under one bill as long as all members of the Consortium are impacted? Do you all want to receive bills with your approved split, or do you want to continue billing the Village, who then handles the pro rata split?

If you need me to prepare a word version of the new resolution, please let me know. Also, if there are any other directives related to this relationship and how information is communicated, please let me know.

## INTERGOVERNMENTAL AGREEMENT

This Agreement entered into this \_\_\_\_\_ day of \_\_\_\_\_, 2016, by and among the Village of Bensenville, DuPage County, Illinois (the "Village"), Bensenville Community Library District, DuPage County, Illinois ("Library District"), Fenton Community High School District 100, DuPage County, Illinois ("School District 100"), Bensenville Elementary School District 2, DuPage County, Illinois ("School District 2"), and Bensenville Park District, DuPage County, Illinois ("Park District") (collectively referred to herein as the "Parties").

WHEREAS, the Parties are authorized to enter into this Agreement pursuant to Article VII, Section 10 of the Constitution of the State of Illinois, and the Intergovernmental Cooperation Act (5 ILCS 220/1 et seq.); and

WHEREAS, pursuant to the Revenue Code of Illinois, the Parties as taxing bodies are entitled to intervene at both a Board of Review and Property Tax Appeal Board level in cases involving tax assessment objections, particularly those wherein a reduction of \$100,000 or more is requested by the taxpayer; and

WHEREAS, the Parties have determined that it is in their best interests to engage counsel to analyze objections received and thereafter to intervene in cases where it appears the reduction is not warranted, so as to protect their respective tax assessment bases and to further prevent other taxpayers from having to pay an inordinate amount of real estate taxes due to an improper reduction in a complainant's tax assessment due to a non-meritorious tax assessment complaint; and

WHEREAS, each of the taxing bodies herein have determined that it is in their best interest to share the cost of appraisers, attorneys, and other experts to appear in and to defend such cases.

NOW, THEREFORE, be it hereby resolved by the Parties hereto, that they agree as follows:

1. The foregoing recitals are incorporated herein as is fully set forth in this Agreement;

2. The Parties hereto engage Hinshaw & Culbertson LLP as their attorneys to intervene in any and all tax cases both at a Board of Review and Property Tax Appeal Board ("PTAB") level where Hinshaw & Culbertson LLP deems the tax assessment objection to be lacking in merit, to protect their respective tax bases and to further protect their taxpayers from paying an inordinate proportion of taxes;

3. That the Parties hereto hereby agree to share the costs of legal services provided, which shall be billed at a rate of Two Hundred Twenty Five and 00/100 Dollars (\$225.00) per hour, and, additionally the costs of any appraisers or other experts deemed necessary by their respective administrations and attorneys in defense of such tax cases, such appraisers or other experts to be hired on a case by case basis.

4. The cost of any such legal services, appraisals or other expert services shall be shared by the Parties on a proportionate basis as follows: (a) Village – 12.34%; (b) Library District – 3.05%; (c) School District 100 – 26.41%; (d) School District 2 – 52.18%; (e) Park District – 6.02%.

5. That this Agreement shall be for a period of two (2) years; however, any of the Parties hereto may withdraw from said Agreement upon thirty (30) days prior written notice to the other parties. The withdrawing Party shall pay all sums due and owing for work undertaken during the period of its participation in the Tax Consortium within thirty (30) days of receipt of invoice for same.

6. That in the event of a dispute as to the hiring of an appraiser or expert, each party hereto shall have one vote and a majority shall determine the hiring of said appraiser or expert.

7. It is hereby agreed by and between the Parties that the Village of Bensenville shall serve as the administrative district for billing purposes.

8. It is hereby agreed that this Agreement and every provision thereof, shall be considered severable. In the event that any court of competent jurisdiction may find or declare any word, phrase, clause, sentence, paragraph, provision, or section void or unconstitutional, any portion hereof not ruled void or unconstitutional shall continue in full force and effect.

9. Any notices required under this Agreement shall be either by personal service or certified United States Postal Service Mail, Return Receipt Requested, delivered to and/or addressed, unless otherwise notified in writing to the contrary, as follows:

**To Village:**

**Village of Bensenville**  
12 South Center Street  
Bensenville, IL 60106

**To Library District:**

Bensenville Community Public Library  
200 S. Church Road  
Bensenville, IL 60106

**To School District 100:**

Fenton Community High School District 100  
1000 W. Green Street  
Bensenville, IL 60106

**To School District 2:**

Bensenville Elementary School District 2  
210 S. Church Road  
Bensenville, IL 60106

**To Park District:**

Bensenville Park District  
1000 W. Wood Street  
Bensenville, IL 60106

10. This Agreement shall represent the complete Agreement of the Parties hereto with respect to all matters regarding the subject matter of this Agreement. All prior Agreements or understandings, whether written or oral shall be of no force, effect, or consequence.

11. Any amendment to this Agreement must be in writing, signed by each of the Parties, and adopted in the manner as required for adoption of this Agreement.

12. By written agreement of the Parties, the term of this Agreement may be extended for one or more consecutive years.

13. This Agreement may be executed in counterparts, each of which shall be deemed an original and all of which taken together shall be deemed one Agreement.

Executed this \_\_\_\_\_ day of \_\_\_\_\_, 2016.

**Attachments:** 2020 KTJ Authorization Tax Appeals Bensenville.docx

Tax Consortium Members,

As we approach the end of the year, I wanted to remind everyone that we need you to adopt the attached resolution authorizing KTJ to represent the Consortium in the tax appeals process. I found a couple of grammatical errors in the resolution that was circulated previously – those errors have been corrected in the attached version.

Mallory is working on drafting a new IGA for us that will 1) add the Fire District, 2) update the pro rata table, 3) make any other necessary changes. We will circulate the new, draft IGA at a later date. In the meantime, please place the resolution on your board's agenda.

Respectfully,

eks

In addition to your approval to intervene in the specific PTAB appeals attached, I will need updated resolutions adopted by each taxing body, stating that Klein, Thorpe & Jenkins, Ltd. is now that authorized representative. For your convenience, I have attached a copy of the old resolution, which can be updated by replacing Hinshaw with Klein, Thorpe & Jenkins, Ltd. in Paragraph #2. You also will likely want to update your IGA to reflect the new law firm, but for intervening in PTABs, I just need the new resolutions.

I also need to know how you want the billing set up and split – do you want each property to have its own matter number or do you want them all together under one bill as long as all members of the Consortium are impacted? Do you all want to receive bills with your approved split, or do you want to continue billing the Village, who then handles the pro rata split?

If you need me to prepare a word version of the new resolution, please let me know. Also, if there are any other directives related to this relationship and how information is communicated, please let me know.

**RESOLUTION BY THE BENSENVILLE TAX CONSORTIUM AUTHORIZING  
INTERVENTION IN PROPERTY TAX ASSESSMENT APPEALS**

WHEREAS, the Village of Bensenville, Bensenville Community Public Library, Fenton Community High School District 100, Bensenville Elementary School District 2, Bensenville Park District and Bensenville Fire Protection District #2 (hereinafter “Bensenville Tax Consortium”), receives statutory notices from the Board of Review of DuPage County of property tax assessment appeals filed by taxpayers with the DuPage County Board of Review or the Property Tax Appeal Board (“PTAB”) regarding the assessed valuation of property which comprises part of the assessed valuations of the Bensenville Tax Consortium; and

WHEREAS, the Bensenville Tax Consortium has a revenue interest in such property tax assessment appeals and finds that intervention as a party in such proceedings is in the best interests of each member of the Bensenville Tax Consortium; and

WHEREAS, each member of the Bensenville Tax Consortium has a right to intervene in proceedings before the Board of Review and the PTAB in order to protect its revenue interests in the assessed valuation of the subject properties.

NOW, THEREFORE, BE IT RESOLVED by each member of the Bensenville Tax Consortium, as follows:

1. Each member of the Bensenville Tax Consortium finds that all of the recitals contained above are true and correct and that the same are hereby incorporated herein by reference.
2. The law firm of Klein, Thorpe and Jenkins, Ltd. is authorized, as of the postmarked date of the Board of Review notice of property tax assessment appeals, to file as legal representative on the Bensenville Tax Consortium’s behalf a request to intervene in the property tax assessment appeals.
3. All motions and resolutions or parts thereof in conflict with the provisions of this Resolution are, to the extent of such conflict, hereby repealed.
4. This Resolution shall take effect immediately upon its passage.

[signature pages to follow]

The question of the adoption of the foregoing Resolution was duly put to a vote, whereupon members of the Board voted as follows:

AYES: \_\_\_\_\_

NAYS: \_\_\_\_\_

ABSENT \_\_\_\_\_

The Resolution was thereupon declared adopted.

APPROVED THIS \_\_\_\_\_ DAY OF \_\_\_\_\_, 2020.

By: \_\_\_\_\_  
**Frank DeSimone, Village President**

By: \_\_\_\_\_  
**Nancy Quinn, Village Clerk**

**SECRETARY'S CERTIFICATE**

STATE OF ILLINOIS            )

COUNTY OF DUPAGE         )

I, \_\_\_\_\_, the duly qualified and acting secretary of the Village of Bensenville, in the County of DuPage and Cook, State of Illinois ("Board"), do hereby certify that attached hereto is a true correct copy of the Resolution Entitled:

**RESOLUTION AUTHORIZING INTERVENTION IN  
PROPERTY TAX ASSESSMENT APPEALS**

Which was duly adopted by said Board at a meeting held on \_\_\_\_\_, 2020.

I further certify that a quorum of said Board was present at said meeting and that all requirements of the Illinois Open Meeting Act were complied with.

IN WITNESS WHEREOF, I have hereunto set my hand on \_\_\_\_\_, 2020.

Evan,

What is the process with this? In Addison, every taxing body sends the appeals to a specific attorney as we get them. Are we doing the same in Bensenville? And if so, where are we sending them?

Thanks,  
Scott

Chief,

We've discussed briefly a long time ago but I wanted to give you an update on the Bensenville Tax Consortium. As I mentioned previously, we weren't too happy with our primary attorney Hinshaw. Recently the consortium dropped them as our primary and has moved our secondary, Klein Thorpe and Jenkins, to the primary spot. In doing so, we are going to re-open our IGA to make some edits. Now would be a seamless time for the Fire District to join us. With your addition, all Bensenville taxing bodies would be represented.

Let me know,

eks

**Subject:** RE: Bensenville Consortium PTAB recommendations

Mallory,

Thanks for the email. A few things:

1. I'll recommend that we take your advice and intervene on the four PTAB cases your reviewed.
2. Shortly, I'll circulate a new resolution for all members to adopt recognizing KTJ as the consortium's attorney of record.
3. Attached is the Word.doc for the consortium's IGA. In addition to adding KTJ to Section 2, we should revisit section 4 and adjust the proportionate percentages. Any other changes needed?
  - o I'm also going to approach the Fire District and see if they would have interest in joining our merry band of interveners.
4. As for billing, and to minimize KTJ's administrative hours, the Village will continue to pay all KTJ bills and then invoice the other members for their proportionate share.

That should cover it for now. **Other members, please weigh in on #1 and give (or don't give) Mallory authorization to proceed.**

Respectfully,

eks

**Cc:** Jada Franklin <[jfranklin@KTJLAW.com](mailto:jfranklin@KTJLAW.com)>

**Subject:** Bensenville Consortium PTAB recommendations

All:

First, I want to thank you all for choosing KTJ as your property tax counsel. Second, per Evan's email on Friday informing me of the Consortium's decision to retain KTJ as its property tax counsel, I have reviewed the PTAB notices that he forwarded me and enclosed are our intervention recommendations.

How I usually approach PTAB interventions is that I have a threshold for intervention (which allows us to, at minimum, be part of any settlement conversation and participate in any hearing) and then once I receive a copy of the evidence the appellant filed, I evaluate whether or not it is beneficial for the Consortium to obtain an appraisal, comparable sales, or just adopt the evidence of the other parties/Board of Review. If there is any cost associated with this analysis, I get approval from the Consortium. Essentially, I would not retain an appraiser without approval from the Consortium. If there is a different way you would like to proceed, please let me know.

In addition to your approval to intervene in the specific PTAB appeals attached, I will need updated resolutions adopted by each taxing body, stating that Klein, Thorpe & Jenkins, Ltd. is now that authorized representative. For your convenience, I have attached a copy of the old resolution, which can be updated by replacing Hinshaw with Klein, Thorpe & Jenkins, Ltd. in Paragraph #2. You also will likely want to update your IGA to reflect the new law firm, but for intervening in PTABs, I just need the new resolutions.

I also need to know how you want the billing set up and split – do you want each property to have its own matter number or do you want them all together under one bill as long as all members of the Consortium are impacted? Do you all want to receive bills with your approved split, or do you want to continue billing the Village, who then handles the pro rata split?

If you need me to prepare a word version of the new resolution, please let me know. Also, if there are any other directives related to this relationship and how information is communicated, please let me know.

**Subject:** Fw: OSFM Facility 2000328 - RE: LUST Fund & Tank Leak

Evan,

I recently got an email from Gabriel Environmental Services regarding the cleanup of the site of old underground tanks at the fire station on York Road. They said that they also sent you the same email. I reached out to the State Fire Marshal and asked them to do some digging. It appears one of the incidents remains open with the IEPA and the responsibility of this site falls on the Village because they were the owners of the tanks at the time of the leaks. Not sure if you have any clue about this because like me, you weren't around when all this went down. The email chain below will hopefully shed some light on this matter.

Thanks,  
Scott

**Cc:** Scott Walker <swalker@addisonfire.org>; Johnson, Scott <Scott.Johnson@Illinois.gov>  
**Subject:** OSFM Facility 2000328 - RE: LUST Fund & Tank Leak

Scott,

You are probably correct in that the environmental company who contacted you have been searching through the IEPA's records for outstanding (open) LUST incidents and making cold calls to the owners or operators of the site to see if they can drum up business. I searched our records and found your site. Our facility ID number for this address is 2000328. I have reviewed our facility file and this is what I found:

There were two incidents reported for this facility: 1999-2754 and 2010-0251.

IEMA #1999-2754 – this incident was reported on 12/14/99 by the Village of Bensenville, (Thomas Moore) for tanks 1 and 2, an 800 gallon Gasoline and an 800 gallon Diesel fuel tank, both of which were removed on 12/14/99. An Eligibility and Deductible application was received by our office on 2/22/01. A letter of eligibility was issued to the Village of Bensenville on 3/19/01 and the Village received a \$10,000 deductible for this incident. This incident was closed out by the IEPA and the Village received an NFR (No Further Remediation) letter on 4/27/10 and it was recorded on 5/27/10. So this incident is a closed issue.

IEMA #2010-0251 – this incident was reported on 3/18/10 by True North Consultants for a release (spills & overfills) for tanks 3 and 4, a 600 gallon Gasoline and a 600 gallon Diesel fuel tank. An Eligibility and Deductible application was received by our office on 4/30/10. A letter of eligibility was issued to the Village of Bensenville on 6/02/10 and they received a \$10,000 deductible for this incident. This incident has not been closed out by the IEPA. According to the IEPA's website, the Project Manager in charge of this case is Carol Hawbaker. I don't know if Carol is still with the IEPA or not. They've had many project managers retire in the last few years. This may be what that environmental consultant found on the IEPA's website and contacted you.

Scott, in neither case does the \$5,000 deductible apply to these releases. Unfortunately, if the person who contacted you had done many of these applications, they would be aware that these incidents have received eligibility and a \$5,000 deductible doesn't apply. Even if they were to ask the fire department to submit their own separate Eligibility application for this open incident, it too would only receive a \$10,000 deductible. A \$5,000 deductible only applies to releases reported to the State on or after 6/8/10. Releases reported prior to that date will receive a deductible of either \$10,000, \$15,000, \$50,000 or \$100,000 depending on the date the tanks were installed vs. when they were registered. This was the case for both of the incidents for this facility. Before you proceed to make plans with the environmental company who contacted you, I think it would be in the Village's best interest to contact the IEPA since they were the owner of these tanks and it received the letters of eligibility. The consultant who submitted the previous applications was a company called Wight. That's all I know at this point.

The Bensenville fire protection district really doesn't need to do anything here. This case is really for the Village to complete as the former owner of those tanks. I would also suggest you reach out of the Village to discuss the fact you've been contacted about this and let them know what I have provided to you here.

If you have any questions, please do not hesitate to contact me. Thank you.

**Subject:** [External] LUST Fund & Tank Leak

Matt,

I am writing to see if you can direct me to the right person. Apparently, Bensenville FPD had underground fuel tanks removed like a decade ago. I only became aware of this when a remediation company emailed me to say there is still outstanding issues with this leak that need to be addressed. I assume this company found this info by search an IEPA site. In their discussions with me they stated that the Illinois OSFM has determined this site is eligible to access the UST Fund with a \$5,000 deductible. I know nothing about this fund or how it works. I also know very little about tank leaks or what is still needed at our site. So is their somebody in your office who can fill me in on the UST Fund. Also, I know you employ "tank people" in your office. Is there any chance of somebody helping me figure out what is still outstanding and what should be involved in fixing it? My concern is I only learned about this via a cold call and I assume this info they are telling is true and they are getting this info from the IEPA. Don't want to start making decisions without knowing the facts, especially when Bensenville FPD is not financially stable right now. Feel free to give my cell 630-338-5539 and email out to anyone you see fit.

Thanks,

*Scott Walker*

Attached is a copy of the ordinance and plat of subdivision that can be placed on the agenda for board consideration. After the plat is approved, executed, and recorded, a deed can be recorded to quit claim the property to the district. We will send the deed for your review and Village execution once the plat is recorded. The original mylar and copies of the plat should be delivered by the surveyor to the deputy clerk this week.

**Subject:** 700 W. Foster Avenue - Fire Station Conveyance and Subdivision; Attorney Client Privileged Communication

Good evening Scott,

As you know, the Village agreed to convey Fire Station #2 to the Bensenville Fire Protection District No. 2 pursuant to an Intergovernmental Agreement that was approved by the Village Board on April 30, 2007. Unfortunately, the Village does not have an executed copy of the Exhibit referenced in the Intergovernmental Agreement which details the process and procedures for the conveyance. That being said, the Village needs to convey the Fire Station and intends to subdivide the property located at 700 W. Foster Avenue as part of the conveyance so that the Village will retain ownership of Well #7 that is located on the property. Attached is a copy of the proposed Plat of Subdivision for reference. Lot 1 on the Plat will be conveyed to the District.

The conveyance and Plat of Subdivision are exempt from the requirements of the Village's Subdivision regulations in Title 11 of the Village Code because the Village is acting as a Public Utility. Title 11 provides that the conveyance of land owned by a railroad or other public utility which does not involve any new streets and easements of access shall not be considered a subdivision and shall be exempt from the requirements of Title 11.

Title 11 defines Public Utility as: "Any person, firm or corporation, municipal department, board or commission, duly authorized to furnish, and furnishing under government regulations, to the public, gas, steam, electricity, sewage disposal, communication, telegraph or transportation of water as defined in 70 Illinois Compiled Statutes 905/10.3."

As the conveyance and Plat are exempt from the requirements of Title 11, the Plat will not require approval by the Community Development Commission.

The conveyance is also exempt from the requirements of the Plat Act because it is the conveyance of land owned by a railroad or other public utility which does not involve any new streets or easements of access.

We have prepared an Ordinance to authorize the conveyance and approve the Plat. Please let us know if you are okay with proceeding with placing the Ordinance on the agenda (likely for a meeting in February) for approval by the Village Board.

Do not hesitate to contact us if you have any questions or would like to discuss these matters further.

Thank you,

**ORDINANCE NUMBER \_\_\_\_\_**

**AN ORDINANCE OF THE VILLAGE OF BENSENVILLE, DUPAGE AND COOK COUNTIES, ILLINOIS AUTHORIZING THE CONVEYANCE OF A VILLAGE OWNED PARCEL OF REAL PROPERTY TO THE BENSENVILLE FIRE PROTECTION DISTRICT NO. 2 AND APPROVING A PLAT OF SUBDIVISION**

---

**WHEREAS**, the Village of Bensenville, DuPage and Cook Counties, Illinois (the “*Village*”) is a duly organized and existing municipal corporation created under the provisions of the laws of the State of Illinois and under the provisions of the Illinois Municipal Code, as from time to time supplemented and amended; and

**WHEREAS**, the Village owns property commonly known as 700 West Foster Avenue, Bensenville, Illinois and identified by permanent index number (PIN) 03-11-400-016 (the “*Property*”), which is improved with a fire station and a building that contains Well #7; and

**WHEREAS**, Well #7 is an integral part of the Village’s water supply system and is required for the continued operation of the Village’s public utility; and

**WHEREAS**, on January 1, 2007, the Village and the Bensenville Fire Protection District No. 2 (the “*District*”) entered into an Intergovernmental Agreement by and between the Village of Bensenville and Bensenville Fire Protection District No. 2 (the “*Intergovernmental Agreement*”), which contemplates and governs the transfer of firefighting functions, property, and equipment from the Village to the District; and

**WHEREAS**, pursuant to the Intergovernmental Agreement, the Village agreed to convey the portion of the Property upon which the fire station is located to the District in its “as is” condition; and

**WHEREAS**, the real property to be conveyed to the District consists of a 26,961 square

foot parcel of land depicted as Lot 1 on the Final Plat of Subdivision of Schoppe’s Station Subdivision, a copy of which is attached hereto and made a part hereof as Exhibit A (the “*Fire Station Property*”); and

**WHEREAS**, the Intergovernmental Agreement provides that if necessary, the Property will be subdivided; and

**WHEREAS**, the President and Board of Trustees of the Village of Bensenville (the “*Corporate Authorities*”) have determined that it is necessary and in the best interest of the health, safety and welfare of the residents of the Village to subdivide the Property into two lots with such necessary easements therein provided so that the Village may retain ownership of Well #7 for its continued operation, maintenance, repair, and replacement and convey the Fire Station Property to the District as contemplated by the Intergovernmental Agreement.

**NOW, THEREFORE, BE IT ORDAINED** by the President and Board of Trustees of the Village of Bensenville, DuPage and Cook Counties, Illinois, as follows:

**Section 1.** The above recitals and legislative findings are found to be true and correct and are hereby incorporated herein and made a part hereof, as if fully set forth in their entirety.

**Section 2.** The Corporate Authorities find and determine that it is necessary and desirable to provide for the purpose set forth herein and that the adoption of this Ordinance is in the best interest of the health, safety, and welfare of the residents of the Village.

**Section 3.** Pursuant to the findings set forth herein, the Corporate Authorities hereby accept and approve the Final Plat of Subdivision of Schoppe’s Station Subdivision, a copy of which is attached hereto and made a part hereof as Exhibit A (the “*Plat of Subdivision*”), and the Village President, Village Clerk and Village Treasurer are hereby authorized to execute and deliver

the Plat of Subdivision.

**Section 4.** The officials, officers, employees, and attorneys of the Village are hereby authorized to take any actions as are necessary to carry out the intent and purpose of this Ordinance and such further actions or revisions to the Plat of Subdivision to ensure the subdivision of the Property is duly recorded and effectuated.

**Section 5.** The conveyance of the Fire Station Property to the District is hereby approved, and the officials, officers, employees, and attorneys of the Village are hereby authorized to take such further actions and incur such cost as are necessary to complete the conveyance of the Fire Station Property to the District.

**Section 6.** The Village Clerk is hereby directed to file a copy of this Ordinance and the Plat of Subdivision in the Office of the Recorder of Deeds of DuPage County, Illinois.

**Section 7.** If any section, paragraph, clause, or provision of this Ordinance shall be held invalid, the invalidity thereof shall not affect any other provision of this Ordinance.

**Section 8.** All ordinances, resolutions, motions, or orders in conflict with this Ordinance are hereby repealed to the extent of such conflict.

**Section 9.** That this Ordinance shall be in full force and effect from and after its passage, approval and publication in the manner provided by law.

**Subject:** FW: RESPONSE REQUESTED - SWORN PERSONNEL VACCINATION OPPORTUNITY  
**Attachments:** DCHD-Police-Fire Vaccination Spreadsheet.xlsx

Chief Schulze and Chief Walker,

While I know that both your departments have had the opportunity to be vaccinated, I wanted to make you aware of a second opportunity. The DuPage Mayors and Managers have had the Health Department agree to start direct vaccinations of sworn police and fire individuals. If you have sworn staff that did not get vaccinated in the first wave but have since decided they want to be vaccinated, please fill out the attached form and return to me no later than Wednesday Feb 10. I will return to completed form once complete. If you have zero individuals left who want the vaccine, please let me know that as well.

**Subject:** RESPONSE REQUESTED - SWORN PERSONNEL VACCINATION OPPORTUNITY

DMMC managers:

The Managers Committee Working Group (Dave Fieldman, Carie Anne Ergo, Kathleen Gargano, Jeff O'Dell, and Al Stonitsch) working with the DCHD has arranged for the health department to vaccinate sworn municipal fire and police personnel beginning on February 15. Depending on the number needing vaccination, this may take place over several weeks.

We ask that you fill out the attached spreadsheet with the names, emails, and cell phone numbers of those sworn personnel awaiting vaccination in your police and fire departments. Please return your completed form no later than 10 a.m. on February 11.

The spreadsheet will be randomized before sending to the health department. The health department will then reach out each week to those scheduled to receive the vaccine.

Thank you in advance.

Suzette

**Cc:** brendalzd@bensenvillefpd.org; Julie McManus ; Chief Scott Walker ; Sharon Guest  
**Subject:** FW: False Alarm Fees

Billy,

I just got off the phone with Chief Walker regarding this matter. The Village will continue to collect the false alarms for the Fire District; if the fire district gets a payment they will send it to us for reconciliation.

On a quarterly basis, the Village will send a check for 50% of what was collected back to the Fire District. This should satisfy all parties. I'll leave the details on the accounting to you and Julie.

Let me know if you have any questions,

eks

Chief Walker,

Thanks for the help your ambulance crew provided us at our senior vaccination event. I'm glad they were there, there was an individual that required transport to the hospital.

We put together a small montage from some of the voicemails we received: <https://vimeo.com/514380447> Feel free to share with your team/board.

Can we count on you guys again for March 6?

Jeff,

I will be scheduling a meeting next Monday morning. In regards to the workers grid, it will remain consistent: we need the same number of cleaners, hallway monitors, EMT, etc. I'll cover this on Monday. Thanks.

3Ws all day, every day Bison!

Greetings:

I just received a call from Julie stating that she and others at PW, who received the vaccine on Saturday, have received texts from Jewel citing a different location for their second shot.

She asked if it was going to be still held at Fenton or elsewhere. I let her know that the event will be at Fenton and that I have not heard otherwise. I suspect that she registered through the Jewel site separately – but I wanted to check and keep you in the loop.

We may get phone calls of confusion.

Any news on your end?

Evan,

My Board voted to move the fire district's alarm billing from the Village to the company we currently use for fire billing effective immediately. I need to know the last period that was billed out by the Village so I know where to start the billing with the new company.

Also, on an unrelated note. We'll be at the vaccination event on the 6th. Can you just confirm the location (Fenton I assume) and what the time period is this event.

Thanks,

*Scott Walker*

**Subject:** Tomorrow's Vaccine Event

For those that participated in the Feb 27 vaccine event:

As you know, we will be administering the second dose of the vaccine to our seniors tomorrow March 6 at Fenton High School. The event will be very similar to the previous one. Please arrive by 8am for a team meeting. We will begin vaccinating people at 9am and expect to conclude around 5pm. The second dose event are usually much smoother; there is less paperwork to collect, people are familiar with the process, and nerves are generally much more relaxed.

If you have any questions, please don't hesitate to ask.

Thank you for your participation in this important effort,

eks

**Subject:** FW: RE: Bensenville Fire Protection District No. 2 Deed

I replied to your email via my Bensenville FPD Outlook 365 account and got the bounce back below. It is saying [Bensenville.il.us](mailto:Bensenville.il.us) suspects my message is spam. Just a heads up you might have others sending you emails having the same issue. I am now send this email via my Addison FPD account that is not on Outlook 365 and we'll see if it goes through.

How to Fix It

Try to modify your message, or change how you're sending the message, using the guidance in this article: [Bulk E-mailing Best Practices for Senders Using Forefront Online Protection for Exchange](#). Then resend your message.

If you continue to experience the problem, contact the recipient by some other means (by phone, for example) and ask them to ask their email admin to add your email address, or your domain name, to their allowed senders list.

## More Info for Email Admins

*Status code: 550 5.7.350*

When Office 365 tried to send the message to the recipient (outside Office 365), the recipient's email server (or email filtering service) suspected the sender's message is spam.

If the sender can't fix the problem by modifying their message, contact the recipient's email admin and ask them to add your domain name, or the sender's email address, to their list of allowed senders.

Although the sender may be able to alter the message contents to fix this issue, it's likely that only the recipient's email admin can fix this problem. Unfortunately, Office 365 Support is unlikely to be able to help fix these kinds of externally reported errors.

**Subject:** Re: MSM Vaccine event 3-21-21 & 100 Bensenville people. To keep you in loop

All,

We want to sincerely thank Dr. Barai, MSM Executive Board President Patel, and the greater MSM community for their offer of hospitality to host their facility to the residents of Bensenville to receive their second shot from the February 27 event. We have, however, opted to host a separate event for those Bensenville residents at Village Hall on Monday March 22nd and IDPH has agreed to this date.

By way of this email Bensenville Police, Fire/Paramedic, and Emergency Management are aware of MSM's 2nd shot event on March 21 between 9:30-11am. Bensenville emergency services have noted this event and will be able to respond to any emergency should they present themselves.

In closing, I believe the Village of Bensenville and MSM have opened doors among our constituents as a result of our mutual vaccine push; I want to acknowledge our partners at IDPH for connecting us. In no way do I want those doors to close. Once we get beyond this vaccine rollout, I am confident that the Village of Bensenville and MSM will build upon this partnership for continued mutual success.

Respectfully,

Evan K. Summers  
Village Manager

**Subject:** MSM Vaccine event 3-21-21 & 100 Bensenville people. To keep you in loop

Hello,

I understand that Bensenville wants to do a separate 2nd shot vaccination event for approx 100 people, who had received their 1st shot at MSM on night of Feb 27.

During my conversation with the Town Manager Evan Summers yesterday, on behalf of MSM, I extended a courtesy offer to host them at MSM on March 21 from 9.30-11 am for the 2nd shots.

Our Temple is in Bensenville and we want to help fellow citizens and the town in whatever way we can.

They will decide what is best for them.

Thank You

Bharat H Barai MD

**RESOLUTION NO. R-70-2019**

**A RESOLUTION APPROVING EXECUTION OF A  
LOBBYING SERVICES AGREEMENT WITH ALFRED G. RONAN LTD.**

WHEREAS, the VILLAGE OF BENSENVILLE (hereinafter "VILLAGE") is a municipal corporation established and existing under the laws of the State of Illinois pursuant to the Illinois Municipal Code, 65 ILCS 5/1-1-1 *et seq.*; and

WHEREAS, the VILLAGE is empowered to make all agreements and contracts and to undertake other acts as necessary in the exercise of its statutory powers; and

WHEREAS, Alfred G. Ronan Ltd. has the experience and expertise to provide said lobbying services; and

WHEREAS, the VILLAGE has determined that it is reasonable, necessary, and desirable to enter into a lobbying services agreement with Alfred G. Ronan per the terms set forth in the consulting agreement attached hereto as Exhibit "A" in the amount not to exceed monthly rate of \$7500.

NOW, THEREFORE, BE IT RESOLVED by the Board of Trustees of the Village of Bensenville, DuPage and Cook Counties, Illinois, as follows:

**SECTION ONE:** The recitals set forth above are incorporated herein and made a part hereof.

**SECTION TWO:** The Village Manager is hereby authorized and directed to execute on behalf of the Village of Bensenville, and the Village Clerk is hereby authorized to attest thereto, a lobbying Services Agreement with Alfred G. Ronan Ltd. in the amount of \$7500 per month for the services as set forth in the agreement attached hereto as Exhibit "A".

**SECTION THREE:** This Resolution shall take effect immediately upon its passage and approval as provided by law.

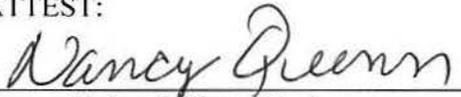

PASSED AND APPROVED by the Board of Trustees of the Village of Bensenville,  
Illinois, this 25th day of June, 2019.

APPROVED:

Frank DeSimone, Village President

ATTEST:

Nancy Quinn, Village Clerk

Ayes: Carmona, Franz, Frey, Lomax, Panicola

Nays: None

Absent: Perez

## LOBBYING SERVICES AGREEMENT

THIS AGREEMENT, made and entered into as of this July 1, 2019 by and between Alfred G. Ronan, Ltd., a consulting firm with offices at 328 S. Oak Park Ave., Suite 1, Oak Park, IL 60302 (hereinafter called "*Ronan*"), and the Village of Bensenville, with its principal offices at 12 S. Center Street, Bensenville, IL60106 (hereinafter "*Village*")

### WITNESSETH:

WHEREAS, THE VILLAGE OF BENSENVILLE wishes to retain Alfred G. Ronan, Ltd. to perform certain lobbying services (hereinafter more particularly described) on behalf of the Village and its subsidiaries in the State of Illinois; and

WHEREAS, ALFRED G. RONAN, LTD. has represented to the Village that it is capable and is willing to undertake the performance of lobbying services in the State of Illinois.

NOW, THEREFORE, in consideration of the payments to be made to Alfred G. Ronan, Ltd., as herein provided, and the mutual agreements herein contained, the parties agree as follows:

#### 1. Terms and Termination.

- (a) This agreement shall be effective as of July 1, 2019, and shall continue in full force and effect through June 30, 2020 a period of one year; However, either party may terminate this agreement at any time without liability, upon thirty days (30) written notice. In the event of termination, any monthly invoices already billed and owing shall be paid, and the final thirty (30) day period shall be prorated accordingly.
- (b) For and in consideration of Ronan's performance of services in accordance with the terms and conditions of this agreement, the Village shall pay Ronan, a fee of \$7,500 per month, payable upon monthly invoice.
- (c) It is understood and agreed that the compensation recited within this section includes usual and ordinary costs and expenses. If Ronan determines that there is a need to incur extraordinary costs and expenses in the performance of services hereunder, then in that event, the Village shall reimburse Ronan for the same, provided the nature, amount and circumstances thereof are fully disclosed to and approved by an authorized representative designated by the Village under Section 5, herein, prior to the time the same are incurred, and upon receipt of a detailed accounting of all such extraordinary costs and expenses.

#### 2. Governmental Relations/Lobbying Services.

The Village hereby retains Ronan, and Ronan, hereby undertakes to exercise its best efforts to protect and promote the business, products, reputation and interests of the Village and its subsidiaries in the State of Illinois performing lobbying services (hereby called "*Services*"). Such *Services* shall include, but not be limited to, the following:

- (a) Monitoring and keeping the Village apprised on a regular basis of all bills and amendments now pending or proposed or which may be proposed during the term

hereof, in the Illinois state legislature or in any agency or department of the State of Illinois, pertaining to the business, projects, reputation or interests of the Village.

- (b) Providing the Village with information and guidance as to the matters described herein and making recommendations as to the appropriate actions which should be taken consistent with the objectives of this Agreement;
- (c) Lobbying efforts with key legislative or regulatory officials and their staffs, on matters pertaining to the business, products, reputation or interests of the Village or its subsidiaries; and
- (d) On instructions from an authorized representative, undertaking such actions as to the Village may deem appropriate and consistent with the objectives of this Agreement, which actions shall include, but not limited to, appearing and/or testifying at hearings and promote the interests of the Village and its subsidiaries with respect to matters and/or proceedings proposed or pending before legislative, administrative and/or executive governmental bodies.
- (e) Ronan shall maintain close liaison and frequent communication with the authorized representatives designated by the Village, particularly during critical periods or on priority items.

### **3. Relationship with Other Clients**

In the event that a possible conflict of interest arises at any time during the term of this Agreement between the interests of the Village or its subsidiaries and those of Ronan's other clients, Ronan agrees to notify the thereof promptly the Village and shall, if so directed by the Village refrain from performing services with respect to such area of competing interest. Ronan agrees that the Village shall have the right to terminate this Agreement without liability upon written notice to Ronan, if, in the Village's sole judgment, upon reasonable basis, Ronan's representation of its other clients conflicts with the best interests of the Village or its subsidiaries.

### **3. Compliance with State and Federal Laws.**

The parties recognize and agree that it has been the other's long – standing policy to comply fully with all applicable federal, state and local laws regulative corporate political and governmental relationships/lobbying activities, and each of the parties agrees that he/she/it will fully comply with all federal, state or local governmental or judicial body, agency or official pertaining to its performing services.

### **4. Confidentiality.**

Inasmuch as in the rendering of Services hereunder, Ronan, its associates and employees may acquire confidential information and data concerning the business and operations of, or belonging to the Village, and additional information and data will be made available to or developed by Ronan; Ronan agrees to treat and maintain all such information and data as the Village's confidential property and not to divulge it to others at any time or use it for private

purposes or otherwise, except as such use or disclosure may be required in connection with performance of the Services or as may be consented to by the Village, unless and until such information becomes a part of the public domain or Ronan legally acquires such information without restriction on disclosure from sources other than the Village or other companies with whom the Village has a business relationship.

5. **Independent Contractor**

Alfred G. Ronan, Ltd is and shall act as an independent contractor in performing Services hereunder.

6. **Non-Assignment.**

This Agreement shall be personal to the parties hereto and no party shall (by operation of law or otherwise) transfer or assign its rights or delegate its performance hereunder; and any such transfer, assignment or delegation shall be void and of no effect.

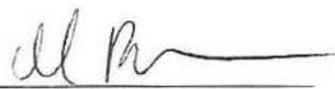

7. **Miscellaneous.**

- (a) This agreement constitutes the full understanding of the parties and a complete allocation of risks between them and a complete and exclusive statement of the terms and conditions of their agreement relating to Ronan's performing services hereunder and supersedes any and all prior agreements, whether written or oral between the parties. No waiver by any party with respect to any breach or default or of any right or remedy, nor any course of dealing, shall be deemed to constitute a continuing waiver or any other breach or default or of any other right or remedy, unless such waiver be expressed in writing and signed by the party to be bound.
- (b) All provisions of this Agreement are severable and any provision which may be prohibited by law shall be ineffective to the extent of such prohibition without invalidating the remaining provisions.

IN WITNESS WHEREOF, the parties have duly executed this Agreement as of the date first above written.
