Ordinance # 42-2015

Exhibit "B"

Community Development Commission Findings of Fact / Recommendation

Motion: Commissioner Rowe made a motion to approve the findings of

facts for the proposed variance to reduce the parking setback from 25' to 4' consisting of:

1. **Special Circumstances:** Special circumstances exist that are peculiar to the property for which the variances are sought and that do not apply generally to other properties in the same zoning district. Also, these circumstances are not of so general or recurrent a nature as to make it reasonable and practical to provide a general amendment to this Title to cover them. Due to the curved path of Thomas Drive, which resulted in the irregular shaped setbacks from street to lot, the overall space available for parking is reduced. Additionally, the location and configuration of the docks, requires a semi-truck turn around in the lot, further reducing the area available for parking. Other properties in the area are configured to use the street as a means to back the trucks in to the dock.
2. **Hardship Or Practical Difficulties:** For reasons set forth in the findings, the literal application of the provisions of this Title would result in unnecessary and undue hardship or practical difficulties for the applicant as distinguished from mere inconvenience. Without additional parking places, the applicant is hindered from sustaining and growing the business in a competitive market place. Also, the applicant will not be able to do additional hiring.
3. **Circumstances Relate To Property:** The special circumstances and hardship relate only to the physical character of the land or buildings, such as dimensions, topography or soil conditions. They do not concern any business or activity of present or prospective owner or occupant carries on, or seeks to carry on, therein, nor to the personal, business or financial circumstances of any party with interest in the property. The circumstances relate specifically to the property due to the irregular shaped setbacks from street to lot.
4. **Not Resulting From Applicant Action:** The special circumstances and practical difficulties or hardship that are the basis for the variance have not resulted from any act, undertaken subsequent to the adoption of this Title or any applicable amendment thereto, of the applicant or of any other party with a present interest in the property. Knowingly authorizing or proceeding with construction, or development requiring any variance, permit, certificate, or approval hereunder prior to its approval shall be considered such an act. The special circumstances have not resulted from any act of the applicant.
5. **Preserve Rights Conferred By District:** A variance is necessary for the applicant to enjoy a substantial property right possessed by other properties in the same zoning district and does not confer a special privilege ordinarily denied to such other properties. The variance is necessary for the applicant to fully utilize and staff the facility, similar to other businesses in the area that have done the same.

6. **Necessary for Use Of Property:** The grant of a variance is necessary not because it will increase the applicant's economic return, although it may have this effect, but because without a variance the applicant will be deprived of reasonable use or enjoyment of, or reasonable economic return from, the property. The variance is necessary so that the applicant will not be deprived of reasonable use of, enjoyment or reasonable economic return from the property.
7. **Not Alter Local Character:** The granting of the variance will not alter the essential character of the locality nor substantially impair environmental quality, property values or public safety or welfare in the vicinity. Landscaping in the form of bushes will be added to the lot to maintain screening of the parking from the street.
8. **Consistent With Title And Plan:** The granting of a variance will be in harmony with the general purpose and intent of this Title and of the general development plan and other applicable adopted plans of the Village, as viewed in light of any changed conditions since their adoption, and will not serve in effect to substantially invalidate or nullify any part thereof. The granting of the variances will be in harmony with the general purpose and intent of the Comprehensive Plan.
9. **Minimum Variance Needed:** The variance approved is the minimum required to provide the applicant with relief from undue hardship or practical difficulties and with reasonable use and enjoyment of the property. The variance requested is the minimum required to provide the applicant with relief from undue practical difficulties.
