AEI Project No. 464255

To whom it may concern:

Please accept this as request for any information/documentation/files with your department regarding the above-referenced subject property.

AEI Consultants is currently conducting the Phase I Environmental Site Assessment for the property. The current ASTM Practice E1527 Standard Practice of Environmental Site Assessments requires a records search be conducted with local regulatory departments for information regarding the subject property. Of particular interest are the following items:

- Permit summary (date, type of permit, applicant/tenant) or available permits from construction to present. Upon review of a permit summary, we may request review of individual permits.
- Construction date (current building, previous buildings if applicable)
- List of tenants which have occupied the subject property
- Permits of environmental concern (petroleum storage tanks, septic systems, oil/water separators)
- Oldest and most recent site layout plan from the subject property if available
- Erosion control plans on record for the subject property
- Record violations or complaints registered against the subject property
- Record of any Activity Use Limitations (AULs) in connection with the property. AULs are typically in place at sites which would prevent future uses of a property.
- Subject property zoning and any current zoning violations.

Please call (516-610-8189) or email (cring@aeiconsultants.com) me to discuss the file information or if you require further information. Thank you for your time and attention regarding this matter.
