

LIBRARIES REMEMBER

Libraries represent the sum of all human knowledge,
and they represent equal access to that knowledge.

Libraries represent freedom of expression,
celebration of diversity, a playing field that is
level, preservation of heritage, and
commitment to the future.

We believe that there can be no more
fitting tribute, no more appropriate
commemoration of September 11th,
than for libraries to simply *be there*.

Join us this year at 6:30 p.m. in the
Bensenville Library's Garden of
Knowledge for our September 11th
commemorative service.
